

Dear Sir,

Thank you for sending the **Emu oil I** ordered. I am 74 yrs. old and can't get around too well – I'm diabetic & use Emu oil on my feet & legs for the pain I get. I do highly recommend it to others for pain in their joints and bones. I want to buy these products for my own use because it's the only oil I've found to take the pain away. I use it every day – as for the lip balm – it also is the best I've found for my lips. Thanks again,

Sincerely, Mae I M., Lykens, PA

My daughter Wendy has problems with the soles of her feet. They are calloused and very badly cracked--to the point of bleeding and infection. They are quite painful and it made her very uncomfortable and unable to sleep. She was not having luck with creams, so on the last night of the reunion she agreed to try the **emu oil**. As I rubbed it into her feet I could tell she had a hard time sitting still because of the pain, but after one "coat" of oil she asked me to "do it a second time. It isn't quite as painful now." Needless to say, it relieved a lot of the pain and she was finally able to sleep that night, I sent my other bottle home with her. I keep forgetting to ask how her feet are and if she needs more oil --I will do that soon, I promise.

Geri B, Sixes, OR

Comments:

WOW!!! I just today purchased your **"Derma 50"** and **"Emu Oil"**. I am currently a welder by trade, and have had recurrent problems with eczema, and have been to a dermatologist who prescribed a stronger ointment (I think steroid) than my family DR had. It would always clear up the eczema, but it would also always return. Well, one week ago, I did some very hot aluminum welding for about 3 hours straight, and REALLY flared up the eczema, which I already had to an extent. I have been miserable since, hardly able to put on gloves, or do much handwork. Today after work I determined to go to a local Country Store that carries your products. I bought the two items, and on the way home had to stop for a train, so I started putting on the Derma 50, and got IMMEDIATE pain relief. The discomfort was much like poison ivy, which I am susceptible to also. This product helped much better than anything else I have ever tried. So, I am happy so far. I will try to get digital photos ! of my hands and arms, BEFORE they get any better with the emu products. Would someone in your company be interested in me sending photos? Also, do you have wholesale/suggested retail pricing? Can the EIN number be my social security number? I might be most interested in being a distributor.

Thanks, Steve K., Sabetha, KS

I use **emu oil** for so many things. Here are a few:

- 1: overnight hair conditioner- I apply to the ends or any dry sections and wash out in the morning.
- 2: **eyelash conditioner-use at night**
- 3: nightly facial moisturizer
- 4: great under makeup as a primer

5: during the winter I apply it to my children's faces before playing outside and their faces no longer get chapped from the cold

6:cuticle conditioner

I can't think of more at the moment but I know there are other uses-It is a staple at my home. Thanks for great products!

wvteacher40@.com

I winter in Arizona and have wavy hair. The water and dryness here plays havoc with my hair – it becomes limp and dull. Since using **Purple Emu hair shampoo** this condition has dramatically changed. My hair is soft and wavy again.

Phyllis G. Green Valley, AZ

My wife has found your **Redness and Blemish** Control crème for curing her rosacea fantastic. The crème has completely eliminated the problem from her face within two to three weeks after she received it. "She is over the moon" after having the problem for the last 9 months. Thank you.

She has also found your **Super Rich Moisturizer** very beneficial to her face.

We have a friend who has also got rosacea all over his face, but he has also got dermatitis with it. He has had this complaint for quite a number of years, can you suggest if your Redness & Blemish Control crème would be suitable for his problem? If so any idea how long before he would be able to benefit and be free from this problem? Your response would be appreciated.

Yours sincerely.

Len Scott.

lenscott2000@.co.uk

Hello,

I am an American living in Europe. I buy **EMU OIL** from you every time I go home. If I can't make it home during the year my mom sends our supply.

1) For babies and kids:

we use emu for our 2 boys who have very sensitive skin.

Great for all baby rashes, measles, skin outbreaks, and of course for diaper rashes.

the only product that does not "burn" my 3 year olds sensitive skin!

2) for Moms:

I use it for removing makeup, cleansing and healing my face, and for stretch marks after 3 pregnancies.

3) for men too, my husband comes to me anytime he has an open sore and I give him Emu. works every time.

Thanks again, anne

anne- Johannes, Austria

Emu oil is now my cleanser, love what it's doing, thanks Nettie!

Ingrid B. - UK

Thank you for your Soft as Silk facial cleanser. It was the final link in my beautiful clear skin. Now my skin stays clear all the time – no more random breakouts.

Kimberly

Houston, TX

Subject: more great results!

Hi Nettie,

As promised, I am just letting you know how my Mum is getting on using the Blemish cream. Well, she too has had astonishing results - she loves it so much and it has made such a difference to her cheek area where she had flare ups of Rosacea. As a previous Rosacea sufferer, I know you will understand how down she used to feel, even when she didn't have an active flare up, her cheek area was always pink/red, almost like there was a permanent mark where the Rosacea had been. You may remember I mentioned she was staying with me when the cream arrived. Literally, within 2 days of use, she saw improvements. Now, she is not wearing cover stick as she simply doesn't require it.

I know you will appreciate more positive comments and it's a pleasure to let you know of what great results my Mum is also experiencing.

As before, please feel free to use any of the above as encouragement to others to try your wonderful products.

I hope you have a really lovely Christmas and New Year.

Kindest regards,

Andrea - UK

Hi my name is Sylvia Stewart, and I live in the UK. After seeing the amazing results when using emu oil on my daughter who has chronic Crohns disease, I felt that there must be more people out there that could benefit from taking it the same way that she has done.) would like to start selling emu oil and emu oil products over here in England. Hope this is okay.

Many Thanks

Sylvia S., UK

I had to share my experience with a gum graft I recently had performed. Since I was aware of emu oil healing properties I started to apply it immediately after the surgery. I dabbed it on the section where the graft had been taken and drizzled it between the bandage and the gum where the graft was sewn. After 2 weeks I returned to have the bandage removed and amazed the periodontist with the results. Apparently the emu oil had managed to speed the healing to the point where he was convinced that my gums showed a five week heal and not just the two weeks it had been.

Since I had also noticed that my teeth were much cleaner and tartar free I continued to use the oil on my teeth daily when brushing them. Not only are all the stains gone from my teeth but my annual cleaning is a breeze. Apparently the oil cleans the tartar and plaque off so I only need a quick polish and I'm done. Awesome!
Chris W, Pennsburg, PA

I have to thank you for helping me stay in shape. I walk in my treadmill 5 miles a day at least 5 days a week and my feet were really suffering from the workouts. Since I started using Purple Rub on my feet before I start walking I find the whole exercise much less painful.
I should have learned from my husband who uses it for his painful arthritic ankles. Thank you for your products – I love them!
Robin Z, Ambler, PA

I have to tell you how your Derma 50 saved the day for our family. On my son's birthday we had a birthday party in our back yard. Imagine my chagrin when the wasp nest in the yard was disturbed and the party goers started getting stung. Thanks to our Derma 50 we were able to literally take the sting out of the guests' bites. Since the party we have also discovered that there is nothing better to take out the itch of poison ivy than our Derma 50.
David W. Pottstown, PA

It has been a little over one week since I began using your Redness & Blemish Control product. I have adult acne and was diagnosed a year ago as having mild rosacea. I am 42 years old and after having seen a dermatologist thought I would spend the rest of my life on antibiotics to keep the rosacea under control.

Although I am still waiting a few more weeks to be sure, so far your product has made a real difference in my skin. Even on oral antibiotics I would wake up each morning expecting one or two new, minor outbreaks around my nose and chin area. Not anymore! While my skin has not cleared completely, it is noticeably better. I am so pleased I read about your products in Newsweek magazine and decided to try one of them. Thank you for making this available.

-Susan S.

Thank you Purple Emu for allowing me to be part of the trial for your new pain relief cream: "Purple Rub". I have to tell you this cream is absolutely awesome! I have suffered with a herniated disc in my lower back and osteoarthritis in my neck and upper back for a number of years. For the first time I actually have something that gives me relief from the pain and the stiffness it causes. And for a bonus, one application lasts for hours, no reapplying the cream every 30 minutes like other creams. Thank you, thank you a thousand times over for Purple Rub. I can finally sleep through the night.

C. Hampton

- My husband has two plates and fifteen pins in his hip from an automobile accident. There was sciatic nerve and bone damage. At the end of a day of walking and being on his feet he is sore and in pain. He comes home and applies **emu oil**. Within five minutes he feels better.

Sue , Medford, WI

Subject: Re: Thanks!

Yes, you may certainly use my comments. It has now been about 10 days since I began using the **Redness & Blemish** formula and it has calmed the rosacea PLUS it has improved my skin in general. I have a small but annoying problem with "adult acne" and even when that is not an overt problem, I still have very oily skin, year-round.

I am amazed at the difference your product has made in such a short amount of time.

I have been on daily oral antibiotics plus a topical cream for months and months. While this seemed to control the rosacea fairly well, I knew that each morning upon first looking in the mirror I was likely to see something "new" every single day. I thought that was the best I could hope for.

Not anymore! Being a born skeptic, I'm still waiting to see the long-term results of your product, but I am very happy so far. I would not have believed this was possible. Thank you!

Now, my only problem is whether to let my dermatologist in on my secret! Thanks for making such a remarkable product. I can honestly say that if I didn't tell people, no one would ever now know that I have rosacea.

Sincerely,

Susan S.

- My husband has always had a lot of cold sores in the winter time. They are on his nose, his mouth and large ugly ones. He started using **emu oil** on them as soon as they started to develop and they do not amount to anything. He swears by it.

Don & Lois M, Box 104, Singhampton, Ont. Can

After just a few days using the pure refined **emu oil** on a badly affected vaginal and rectal case of lichen sclerosis, the swelling has diminished, the redness, itching and eruptions are disappearing.

Most significantly, the thick scarring from a previous surgical procedure at Mayo clinic has gradually been breaking down and is peeling off leaving a smooth pink skin surface. I have also been putting a couple of pumps of the product in a vaginal applicator and inserting once a day. I am experiencing healing of the scarring and skin breakdown due to years of using topical steroids for this condition.

I began using your products after researching the internet and finding another person who suffers from Lichen and she found relieve using the Purple Emu so I am grateful to her for sharing her experience.

I see you don't mention in any of your literature or on your site the benefits of this oil in connection with Lichen Sclerosis but she and I both can testify that it does indeed have very beneficial results. Feel free to use my experience if you like. I expect I will see progressive healing as time goes on and will plan on buying this product in larger quantities so as not to run out.

Gay, Bismark, ND

Thank you so much for your wonderful all natural products!!! I am extremely chemically sensitive and cannot use anything whatsoever with synthetic toxic chemicals. I was previously using a product that was supposedly "Natural" and it caused my skin to become very irritated resulting in dryness and severe flaking and peeling within just a few weeks. Brilliant me finally looked at the ingredients (with a magnifying glass because the listing is so tiny on the containers) and saw that it was full of chemicals. Even though I discontinued this within just a few weeks of starting, nothing I tried would restore my skin from the flaking and peeling damage. Finally I remembered that I had a sample jar of **Super Moisturizer** and I tried that. Amazingly enough this healed my skin and stopped the dryness and peeling overnight!!! Needless to say I am ordering a regular size of this with my order for the Protective Sun Crème, which is the best natural sunscreen I have ever found. It has been a challenge finding high quality totally natural products, so I am very glad that I finally found your company (while searching on the internet).

YOUR PRODUCTS ARE SIMPLY AMAZING!!!!

Gratefully, Evelyn G.

Subject: Satisfied customer

Dear Nettie,

I have been using your **Redness and Blemish** control cream since the end of March this year and also your **Super-Rich moisturizer**. At first the redness and blemish control cream produced more spots and I was distraught but you assured me this was normal and purging all the debris out of my skin. Because of all your encouragement I continued with the cream but only twice a week and applied the Super-Rich Moisturizer every day. My skin today has never looked so good and two of my colleagues have commented on the huge difference in it as I always had blemished skin and very sore and red. I am also using the sun crème and it seems to take a lot of the red away and my skin looks great with just a little makeup over the sun crème

I thought I would tell you all this because I am so happy with the state of my skin after using your products. Please never stop making them or I will be lost. I think I have suffered from the age of 12 with skin problems and I am now 56!!!!!!

Anyway, thanks again for all you efforts Kind regards

Linda S.

Thanks Nettie ! I got to tell you, my son has had bad acne for the last two years and we have tried all kinds of topicals and prescriptions, the A/R Crème is the only product that works ! My son also takes B-5 powder, 5 grams per day. This reduces his oils drastically. I would love to think he could eventually stop taking the powder . . . We just may need to wait for the hormones to balance out

John D, Province, NC

Nettie,

I will be glad to give you a report on how the Protective Sun Crème works for me. I have rosacea and the Redness & Blemish Crème has worked wonders for the few break out I have had. I use a little of the emu oil as my moisturizer. My case is mild since I caught it fairly quickly. So far I have not be able to use any other sun screens as they all seem to make my skin feel like the air is totally cut off and my face will flush, and break out. The Redness & Blemish Crème has also cured a stubborn case of itching on the bottom of one foot. The doctor said it wasn't athlete foot, but couldn't seem to stop the itching with any of their prescriptions, until I tried your Redness & Blemish Crème. Thank you for the great products you provide.

Since the Redness & Blemish Crème has worked so well I wanted to give the Protective Sun Crème a try. Thank you,

Julie F., Plano, TX

Hello,

I have to say I tried your Blemish Control cream for acne rosacea with great success. I went around for months with a roaring red nose and cheeks and accompanied welts. I read about someone else trying your product in an English magazine and decided to try it, it was the best thing I could have done. My skin now is 100% improved, I get the odd blemish now and again, apply the cream and it's gone the next day.

Jean McK.

Subject: BLEMISH CONTROL CREAM - the miracle treatment! Dear Nettie,

I have suffered from the debilitating condition of Acne Rosacea for the past 4 years. For someone who has lived with perfectly flawless skin all her life it was a shock to discover my complexion turn from a mild redness along my 'T' zone, to my whole face looking very angry, pustular, and lumpy, which was also very painful to touch. It was getting worse by the day. My self esteem was so low. Hurtful comments were becoming the 'norm' from friends and associates and even 'passers by'. Depression started to take a hold on me. I felt I was losing all my credibility as a Complementary Therapist (I practice Aromatherapy, Reflexology, Remedial Massage, Reiki and Thermal Auricular Therapy from home). After all how could I persuade my clients that I could improve their quality of life when I couldn't do anything about my own! After numerous visits to my G.P. and various prescriptive drugs, nothing seemed to improve the situation apart from a steroid cream which the doctor refused, quite rightly, to prescribe to me long-term. A friend of mine ordered the Blemish Control Cream from you after seeing an advertisement in a magazine which he had spotted whilst waiting in his own G.P.s surgery. I must admit I wasn't very optimistic but for the last six weeks I have religiously used it twice a day. It was like a miracle had happened. Within 3 days of starting the treatment my skin had noticeably improved. Initially I took your advice and used it sparingly on a small area. I needn't have worried as the cream did not make my condition any worse, quite the reverse, so I went for broke and started to use it, albeit in minute amounts, all over my face. I have suffered no adverse effects. Thank you for giving me my life back Nettie.

Could I ask whether there is an supplier of Purple Emu products within the U.K. My own G.P. has shown an interest in my case and is carefully monitoring it. I have left a copy of your leaflet with him to give him a brief overview.

Thanks once again.

I look forward to hearing from you. Yours sincerely,

Miss Carol H.

September 27, 2000

Subject: Re: Thank you!

Nettie,

Just wanted to drop a note: the **Redness and Blemish** cream in conjunction with the pure refined **emu oil** is absolutely miraculous! I experienced a mild case of Rosacea and was preparing to go to on an antibiotic until my brother, John Johnston, urged me to try the cream. Wow! My friends and family have noticed the dramatic change in my complexion. The texture of my skin has changed for the better...difficult to define, but clearer and more radiant. Let me note that when I first began using PEL Basic and Emu Oil that I continued to use all of my facial cosmetics...no problem...that is why I am so impressed with this product. The cream began to work immediately on my skin even with the application of make-up and etc. I cleanse my face in the morning and the night. It is not a cure, but a CONTROL cream....occasionally those nasty little white heads try to migrate around my face...now, I have the advantage with Pel Basics cream! No matter what pimples 'try' to surface on my face....I gently massage the cream into my facial skin and when I awaken the next morning: clear skin at times or at the very least, the pimples have diminished and by the end of the day are completely gone. Usually, I waited days and sometimes a week or more for one to disappear. I use the cream twice a day..that's all. The 5 oz. jar has lasted approximately two months...not bad for new, beautiful facial skin for 13.00 a month! I have tried the very best in natural skin care products and I have found nothing like PEL Basics and Emu Oil. Thank you, Nettie, for the promotion and nurturing of such a wonderful product as PEL Basics and Emu Oil...and the beauty of it all is that it is all natural ingredients.

You may print this in your promotional literature if you wish and may edit what you wish...I just want everybody who is suffering with rosacea to know that there is a product that can help .

Peace,

Kathleen H.

Subject: Fantastic Cream

Hello,

Just thought I'd write you an email to let you know how FANTASTIC I think your **Blemish Cream** is. I suffered from rosacea for about 10 years. The doctor couldn't do anything for me. I had creams and pills over the years that seemed to take the edge off it for a couple of days and then it would be back as bad as ever. I used to get dry flaky skin in a sort of butterfly from the top of my eyebrows, across my cheeks to just under my chin. I had to moisturize every day otherwise it would flare up all red, puffy and sore for few days. Then my fiancée found an article in her Take a Break magazine about somebody in the same situation that had excellent results, so I ordered some. Talk about QUICK - it had basically cleared my skin within 4-5 days. I could actually see the pores in the skin either side of my nose, a patch of skin that was usually permanently red and smooth. The only thing is I was lucky that my fiancée had seen the

article otherwise I could still be suffering. Why haven't I seen any adverts in the UK, you'd sell loads of the magic cream! I like it so much I've put a link you logo and a link on my website :o)

Anyway, thank you very much.

Cheers,

Paul C. UK

Thank you Nettie! I have been meaning to write to tell you how pleased I am with your products. I will be 40 in January, and for the past 20 years I have had problems with Rosacea. I have had multiple visits to the Dermatologist, with no results. I wasn't sure if your products would help, but I decided to take the plunge and try them. I have been using them for quite some time and truly love them. I can't do without them. I use the **Redness and Blemish Control** and the **Super Rich Moisturizer**. My skin looks the best it has looked in many years. I still have flare-ups every now and then, but for the most part it is clear. I am not embarrassed to go without make-up anymore. You have a customer for life. Thanks so much and God Bless!

Lori T, Hope Mills, NC

I have found many uses for your **emu oil**. I use it for blemishes to reduce the redness and inflammation. I find it also helps acne medications absorb better into the skin, in turn causing them to work better. I find it is a great eye makeup remover also. It is gentle and moisturizes the eye area very well. I also put a little in the ends of my hair when it gets really dry or is need of a trim.

Thanks,
Andrea

angeliarich@windstream.net

Hi Nettie,

I just had to write and tell you thank you.

I was given a sample of Purple **Emu Oil** to use for my rosacea and loved it. I now use the Redness and Blemish Control. The Super-Rich Moisturizer and the oil as treatment for my skin and they are great. My skin hasn't looked this good in years.

Thanks again for great products

Terry

Just wanted to share a letter that a friend had given me after selling her a jar of the A/R Creme.

'We are having AWESOME results with Emu Stuff! Jake is on Cloud 9 now and almost can't wait to wash his face. He's not all cleared up but what an improvement, and he says his face doesn't hurt anymore, either. Thank you! Thank you! Thank you! When you order more let me know.

Love,
Bonita"

Just wanted to share that with you. I just want to tell everybody with blemishes (even strangers) about Purple Emu.

Sincerely, Ellen B, MI

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of emu oil 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

I have also become a fan of your **Super Rich Moisturizer**. That stuff is wonderful too. I put it on my face and see the wrinkles instantly smooth out. It makes my skin so soft and smooth. It's so light, and even though I don't usually like scented products, it has a nice, light scent that is very pleasant and doesn't linger.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris R.

Subj: Re: MS and emu oil

Here is what I think that **emu oil** has helped with me. The nerve casings that go down the arms and legs were shortened on me due to the inflammation of MS. Emu oil is a very good source of essential fatty acids, and fatty acids called myelin are what coat those nerves. Having a diet high in fatty acids has long been known to lessen symptoms of MS because the fatty acids are usually low on a MS person. What MS does is attack the myelin (fat lining of the nerve). My opinion is that if there is more fatty acid available in the diet, it can either replace the inflamed places and soothe that nerve, or it can provide fatty acids besides the myelin for the MS to chew on for a while!

Well, so much for my limited wisdom.

Susie R. Burlson, TX

While at our family reunion in June, I had occasion to "sell" **emu oil**. My mother has cramping in her feet that just doesn't quit. She usually massages with creams of various sorts, but often it does no more than temporarily relieve the current cramp. I asked her to use the emu oil and the **cramp** not only **was relieved**, but **didn't** return that night. Mother is never too ready to give credit in case it was a fluke, but *she was* really quite pleased. She and Dad are in their 80s so they have various aches and pains often. Mom wanted me to replace the one-ounce bottle I gave her and made me promise that I contact you for a price. Daddy wanted some for his buddy's wife If it doesn't cost too much." As you probably have

guessed, they're on a fixed income. I have been meaning to ask him if he still wants some for his buddy, but the subject hasn't come up.

Geri B. Sixes. OR

I've been meaning to call you, but in the interim, I must tell you how pleased I am with the results of the "Blemish Control" cream. I wanted to wait until I was absolutely certain that the effects were not my imagination. The improvement in my skin is less redness, and the smoothness is undeniable as compared to before using this product. I wear much less makeup and would actually feel comfortable without it. I thought the redness in my skin was due to broken capillaries; however, I have found that it was due to the acne rosacea. I am totally satisfied and will be renewing my order next week.

Sincerely, ReBecca

Dear Folks,

I'm writing to let you know how Purple Emu oil has helped me. Three years ago, I closed a file cabinet drawer on my thumb nail and damaged the nail bed. The nail turned purple and I expected to lose it. I also expected that a new, normal thumb nail would grow back. Instead, misshapen, chalky clumps of nail grew in which would flake and tear off before it grew to the midpoint of the nail.

Needless to say, it was very unattractive and tender, and I could no longer use that thumb normally. The skin surrounding the nail and on the entire thumb was cracked and sore. I showed it to a dermatologist who suggested that I keep it lubricated with AquaFor, but could offer me no hope that the nail would ever grow back again.

On a trip to the health food store, I happened to see Purple Emu oil and bought some, thinking it might improve the cracked skin around the damaged thumb nail. After a couple of days, the skin was much improved and I started applying it to the nail, too. After three weeks, I noticed that not only did the nail feel better, it was grown out farther than I had seen it since the accident. Now the nail is nearly grown out and while it is still bumpy, it seems strong. I can press on objects with my thumb pad without causing pain to the nail area. Thanks for a great product!

Sincerely, Carol D., Baraboo, WI

Hello Purple Emu! Have been enjoying the products ordered and have told other rosacea sufferers about the Redness and Blemish Control and emu oil because I believe it will help them take down the redness irritation and bumps, also. Thanks for giving me a product that WORKS!!!

Sincerely, Carol V., University Place, WA

I have suffered for years with muscle spasms in the back, usually one of these bouts last 5 or 6 days, the only relief was from a prescription muscle relaxer, I don't know if they actually helped or just made me sleep through the misery. About three months ago while building fence, I pulled a muscle in my back, this is generally the beginning of several days of suffering. I had my back rubbed with a Sports Rub followed

in an hour or so with pure **Emu Oil**, that night I went through the same routine. The next morning my back was stiff but after a couple of hours I was able to get back to fence building, maybe at a little slower pace for the day, but by the next day was at full capacity.

Don A., Dailey, WV

Hi Nettie,

One of my cats developed some sort of skin infection, the vet didn't seem to know what it was and prescribed an antiseptic cream to treat the infection. The cream was doing absolutely nothing to fix his skin problem so I decided to put some **emu oil** on it and to also give him some orally. The skin infection has totally cleared up now, but the only problem is my cat absolutely loves emu oil and asks me to give him some every day! I've created an addict :)

Melissa D. [dixmelissa@.com]

Subject: RE: Thank you!

I have to say a huge thank you to your company regarding the **Redness & Blemish Control** Crème I received. I have been battling rosacea and acne for over 15 years and within a week I noticed a huge difference!!!! It is a wonderful product that has greatly increased my self-esteem!!!!

Thank you all again.

I will be ordering again soon :-)

Lisa McL., Canada

A VERY satisfied customer

Just ordered some ore **Derma 50** and I just wanted to let you know how good this stuff is on poison ivy and poison oak. I just got over both - I'm more allergic to poison oak. In the past I'd just dab on some of the **Derma 50** on my poison ivy and it would be hardly bothering me at all until it went away. I also had a couple of spots of poison oak this time, and I really am pleased with how the Derma 50 helped it!!!! I even had a fever with this stuff and really felt lousy - not just from the itch, mind you. It's more like hives with me. The area felt more like a large blister, and the Derma 50 helped heal it, with no scarring! ! And, instead of an itch, there was more like a raw sore, maybe like a bedsore (which I've never had). I don't know what I would have done without the Derma 50. I'm telling everyone about it, more so than I was before!!! THANK GOD FOR EMU AND YOUR PRODUCTS!!!!

Ann Toilette,

Subject: Purple Emu Psoriasis Creme

Nettie Bunton

On January 5, 2000, while vacationing in Barbados, I came across **Purple Emu Psoriasis Crème** at Ayshford Rare Breed Park. As I battled psoriasis over 80% of my body for almost 30 years, I decided to try it.

I have applied it to my affected areas once daily since that date. To my amazement, this product has worked better than any over-the-counter or prescription compounds I have ever used. My skin no longer scales and the bright redness has turned to a pale pink.

After contacting my Dermatologist and relaying my observations, I was given an "Emergency Appointment" on January 17, 2000 to confirm these results. Her reaction, upon thorough examination, was, "I'm truly impressed". Upon applying the crème to the back of one hand and the oil to the back of the other, she confided that although she never uses anything on her skin, she would surely use these products.

If I have achieved these results in only 12 days, I can't imagine my future progress.

Sincerely,

Rick K., Special Education Teacher

Last year I had to undergo radiation treatments. Since you are not supposed to use any oil based lotions during the treatment--I waited until the weekends and used **emu oil** after my treatment on Friday, then on Saturday and Sunday. My skin did not burn as much -and when I did have a problem it cleared up faster and reduced the pain of the burn. After the radiation was over I continued to use the **emu oil** every day. My skin returned to normal quite quickly to the amazement of the doctors and nurses

- Our grandson had an allergic reaction to an antibiotic, which created a diaper rash with a fiery red area like a burn. He was very fussy, and in a lot of pain. We put **emu oil** on it and within a minute the pain had eased, he quit fussing and was happy again. I use emu oil on my face and neck every day. My skin feels dry without it.

Sharon S., Thorp, WI

I have also been using **emu oil** on my scar that I have from a past hernia surgery, it is fading dramatically.

I have been using it on my stretch marks on my back, they are almost 100% gone in only about 2 weeks of use, incredible! ! **Also on red spots from a past rash, also fading big time :). . .** even my parents have been begging me for this oil before bed for their dry skin.. we all love it and wont be without it.

Thanks for making this available to us all. Bye and I'll be in touch

Mike L, AZ

I am looking SO forward to getting my hands on the **emu oil** for my three year old daughter. She received stitches on her beautiful face last Friday. I know from first-hand experience that the oil will prevent her from scarring.

After using **emu oil** faithfully on a second-degree chemical burn on my face, I have NO scarring – nothing at all. There is no evidence that there was once a 1” X 1 ½”hole over my right cheekbone. Absolutely amazing. So, thank you for continuing to make such a fantastic product. It is truly wonderful to know what I am getting with your product and that your oil is top-of-the-line. My baby girl will soon be on the mend!

Sandy A., Sellersville, PA

I ordered the **blemish control** three weeks ago and just wanted to thank you for changing my life. I had tried everything for my cystic acne (accutane, retin a, various antibiotics, proactive) - nothing worked! Until your cream. I decided to go for broke and my skin was nasty for the first five days and then - like a miracle - cleared. Five days! My skin is finally clear. People at work have noticed - "You look different. Did you cut your hair?"

You now have a loyal lifelong customer. Again, thank you.

Cheryl H., Glendale, CA

Please note how pleased I am with all the products. I used the **Emu Oil** on a badly cut finger. While washing a Pyrex disk it broke into 3 pieces and 2 of them sliced and cut 1 finger badly. ER had to put gelfoam on it and I had to keep it dry for a week. (alt wouldn't stop bleeding as many layers of skin were cut [sliced]. After that time frame I started using the oil and you can hardly see anything (markwise) on the finger. My boss said I'd have a scar.

Happy Spring

Mary Ann P.

My sister in Texas had knee replacement and I sent her **Emu oils** and she rubbed the knee daily and the knee is healing nicely.
Catherine [cbwms1@comcast.net]

I really, really like this product. I have tried other products which contained **Emu Oil** but none performed for me like your Purple Emu Oil. I use it for joint pain, sinus pain and itchy scalp. I don't like to be without it.

Edith Jones [edithkjones@.net]

I find the **Purple Rub** actually gives me relief from Sinus headaches. Just a little dab on my temples, forehead and cheekbones and the pain fades away.

Chris, Lehigh Valley, PA

Dear Ms Bunton,

Some weeks ago now I placed an order with you for some **Redness & Blemish** cream to hopefully solve my rosacea problem. Up until my 30's I had excellent skin for a man, but gradually the problem of rosacea began to appear and despite all kinds of conventional products obtained via my G.P, it worsened both in intensity and area, it had spread from my face onto my chest, over an area of about 6 inches by 1.5.

To be truthful I didn't expect your product to work and after the problem of shipping where the cream didn't arrive I thought the worst !

My problem has now virtually disappeared, the embarrassment and self consciousness that blighted my life has been solved,) had also been suffering from depression, coincidence or not I do not know but that has also disappeared.) wish to sincerely thank you, you have improved my quality of life to a remarkable degree.

Yours sincerely, Reg Simpson (U.K. customer)

Emu oil is now my cleanser, love what it's doing, thanks Nettie!

Ingrid Belsnes - UK

Thank you for the **emu oil**. The doctor asked me what nationality I was because my stretch marks are minimal on the sides and none on my belly, and its not from gaining SIXTY POUNDS! (Ancient Chinese secret – EMU OIL!!)

Sherrie S., Valley Forge, PA

You're wonderful for checking in with me and I'm so glad that you personally contacted me! Here's why...

I've been spending more time out in the sun lately and I wanted extra-extra protection on my face while at the pool with my kids, so as I looked around my bathroom, I found the **protective sun crème** that I never gave away and decided to use that on my bare face (no makeup). When I put my glasses back on and looked at my face...I was kind of shocked at what I saw...

The **protective sun crème** seemed to cover my face as though it were makeup...but I thought maybe it was my imagination so I took a big mirror and went outside to see how I looked in broad daylight and I was amazed! Remember I told you that I didn't like how it turned my face kinda white and didn't look great under my makeup? Well guess what? The **protective sun crème** has now BECOME my MAKEUP! ! I can now and am currently typing to you while at WORK with nothing on but your protective sun crème and mascara!!! Now, while it doesn't completely cover any huge blemishes, it does cover smaller ones and evens out some of my redness which is insane but it really does!!

I've been trying to find a way to stop wearing makeup without looking like a freak show and now I've found it. With the proper blending of your sun crème into my skin, my skin looks even-toned and natural. This is why I am ordering more!!! Who knows; now that I don't have to cake makeup on my face anymore, my skin problems just may go away on their own - NATURALLY!

If you'd let me return it to you back then, I never would have discovered this miracle...SO THANKS SO MUCH!!!

Sincerely,

Jessika E.

Dear Netty,

Sorry this took so long but I'm finally getting to sending the e-mail with pictures that I've promised numerous times before.

First let me thank you for all your support. I had some fears in the beginning and you helped me through.

You guys have some terrific products and I'm so happy I found this website. I currently use the **Redness cream**, the **super rich moisturizer** (a MUST with the rosacea cream-it's GREAT), the facial soap, the sunscreen, lip balm, and body moisturizer. You guys have some terrific products. I also want to thank you and anyone else who has answered the phone for being so helpful. Product is one thing, customer service is another and they go hand-in-hand.

I've finally attached some pictures from start to finish. I started in April, 2003 using the products twice a day and wearing a full face of makeup. Now am down to a regular routine of once a day or so and NOT wearing ANY makeup--it's great! The first picture is from April and the last one is from August and the ones in between are to show how despite the initial breakouts and "purging" you explained to me-whew!, my skin emerged happy, healthy and better than it's looked in twenty years!

Have a great "rest-of-the-summer" and I'll be contacting you soon for yet another order!

Linda G., Valley Stream, NY

Emu oil penetrates deep to help set color & reduce Plasma oozing. Hydrates naturally to aid in stretching.

This 100% pure Emu Oil contains a complete balance of essential fatty acids (Omega 3, Omega 6, and Omega 9), which plays a part in the regeneration of healthy new skin cells. It is an all-natural product and will not clog skin pores or cause breakouts. Emu Oil is non-toxic, hypo-allergenic (non-irritating), gentle for all skin types, and can be used on tattoos and piercings (both internal and external).

Nettie,

Last Monday I started using the **Emu Oil** on my skin (I am only 56, but have skin of someone about 80 due to use of prednisone) I'm using it to hopefully strengthen my skin which is very thin, and know this may take some time. But I also started using the oil on a nasty laceration on my leg. The wound/scab is shrinking daily and I haven't lost any of the skin surrounding the wound, which has been the case with two other bad lacerations I sustained. I am amazed as to how well this wound is healing and have to attribute it to the **Emu Oil**. I just ordered some more on line, as

well as a sampler of your super rich moisturizer. Any improvement in the overall strength of my skin on my legs and arms would be wonderful.

Thanks for a great product!

Linn R. Louisville, KY

Hello Nettie. I want to say thank you for the fine products. The **blemish cream** is superb. Here is some info for you. I have been trying gio flex for some arthritis in my hands, since I am a Musician, Guitar player, need some relief. I tried the sample sent with the cream and have ordered more. I put the purple rub on My left hand and the other brand on the right.

You are going to love this. Complete flexibility for the left and limited for the right. Again, a super product. It is always good to Believe that the People that make the product, Believe it Themselves. Thank you.

Kyle P., North Charleston, SC

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of emu oil 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered

my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

I have also become a fan of your **Super Rich Moisturizer**. That stuff is wonderful too. I put it on my face and see the wrinkles instantly smooth out. It makes my skin so soft and smooth. It's so light, and even though I don't usually like scented products, it has a nice, light scent that is very pleasant and doesn't linger.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris R.

Hi Nettie,

I just had to write and tell you thank you.

I was given a sample of **Purple Emu Oil** to use for my rosacea and loved it. I now use the **Redness and Blemish Control**. The **Super-Rich Moisturizer** and the oil as treatment for my skin and they are great. My skin hasn't looked this good in years.

Thanks again for great products

Terry

This is the first product I have ever tried that has actually cleared my acne (and I tried everything my doctor had available). It is also working for my teenage son. Thank you so much.

Sarah W, UK

Had 3rd degree burn. Used **emu oil** and unable to see where my left hand was burnt. No Scars.

Robert V.

Pearl City, HI

Dear Nettie,

At long last I am happy to report after using **Redness & Blemish Control** and **Emu Oil** for about 4 months it has completely cleared up my complexion. Remember, I had a very severe case of Rosacea that has plagued me for over 30 years including the embarrassing pimples, flushing, and fever that goes with this condition. I also noticed Rosacea had diminished my confidence and was effecting my business because I have to work with the public everyday.

I have tried every lotion, potion, creams, oils, drugs, and a few things I can't remember, and none of those worked until I found your web site. I must say I was a bit skeptical, but I tried everything else so why not give this a whirl. What I found out Nettie was how compassionate you were in helping me to deal with my problem.

When I received the **Redness & Blemish Control** and **Emu Oil** I wasn't sure how to use it. So, I ask myself should I put the cream all over my face or just the effected areas, and follow up with the Emu Oil. Well, after all the years of suffering I decided to go for broke and started using it all over my face twice a day followed up by the Emu Oil. However there is a down side to doing it this way but, in the long run it really paid off.

Here is the down side to using Redness Crème all over your face. It is such a powerful bacteria killer that it causes your face to breakout very badly in the beginning because it draws out all of the bad therefore producing the redness and the pimples. But, the good news is it only lasts about 8 to 10 days and then your face starts to slowly clear up. By the time I had used both Redness & Blemish Control and Emu Oil for about one month or so my face was almost clear including the flushing and fever. By the time I had used the products for two months or so my complexion was completely clear, no fever to speak of, and the flushing was virtually gone. Now I am in my forth month and can report all is well and have noticed that my confidence level has returned and is extremely high now. THANK YOU VERY MUCH NETTIE.

I would recommend these wonderful products to anyone and would tell them that if they want to get rid of this terrible condition they may just have to make up there mind to go through a few days of discomfort, but they will be very happy they did to have a life time of freedom from this terrible condition, "ROSACEA".

John J.

P.S. Nettie, in closing it might be prudent to also recommend that people try treating only the affected areas first and follow up with Emu Oil before attempting to use the Redness & Blemish Control all over their face.

Many thanks for accepting my order, I would like you to know that I look at your product as nothing short of a miracle, I started to suffer from rosacea about 6 years ago and after trying countless creams and long term antibiotics from the doctor nothing would get rid of it, I went from a confident, sociable woman to someone who would use any excuse not to go out, even putting on make-up made it look worse. When I heard about purpleemu I was eager to try it my results were immediate, my skin is back to normal again, friends and family have complimented me on how well I look. I have written to a national magazines beauty page to tell them about this amazing product, I am sure there thousands out there who, like me, would benefit from your products.

Karen D., UK

Subject: customer satisfaction

My name is Cherry G., and a few months ago I discovered your **Redness and Blemish cream**! It's fantastic. I was having some health problems and was under a tremendous amount of stress. My face got red, red and broke out everywhere! I went to a dermatologist and got some \$100.00 ointment... it did not work. So I found your website and ordered the **Redness and Blemish Cream**. Within a week my face was cleared up completely. I was ashamed to leave the house... but it worked wonderfully. And the order gets here immediately. I do a lot of online shopping and I'm usually fighting with someone about where my order is... not you guys... you ship it immediately. I appreciate that so much!!!! Thank you so much Cherry Goff!

P.S. the order usually comes in my husbands name, Tommy G., and he's used the cream to, he's always had acne problems. He was amazed!

Hi,

THANK YOU SO MUCH FOR YOU VERY CARING EMAIL.I HAVE KEPT USING THE **EMU OIL** AND I HAVE HAD A GREAT RESPONSE. THE AREA IS THE BEST IT HAS BEEN FOR YEARS, IN SPITE OF THE FACT I GOT AN INFECTION AFTER THE BIOPSY. I CAN HARDLY BELIEVE THE DIFFERENCE IT HAS MADE. I WILL LET YOU KNOW THE RESULT OF THE BIOPSY AND KEEP YOU POSTED ON MY RECOVERY. BY THE WAY, CAN I USE THE OIL INTERNALLY?

FRAN H. - LS

I use **Emu Oil** under my eyes before sleeping and it reduces the morning puffiness and those fine wrinkles. Awesome!

Regards,

Eileen Webb

THE3WEBBS@.com

Nettie,

I wrote to you once before and had always hoped you would use my idea but have never seen it in your uses.

I had horrible feet. I love to go barefoot and over the years my skin under my feet and especially the heels became rough, dry and cracked. Deep cracks. My Aunt first bought me Purple Emu as a X-mas gift, along with other creams to try on my feet. I used some of the other creams but was skeptical about Emu oil. Avon, Dr. Scholl's, True Blue Spa, Bath and Body Works nothing worked. Finally I tried the **Emu oil**. Within weeks I noticed a difference in my skin it was smooth to the touch. I continued to use the oil and within a few months the cracks were gone.

My boyfriend has psoriasis on his elbows. I let him try Emu oil and it helped clear his dry patches. He liked it so much that he stole the bottle from me.

dilynn0704@.com

I just wanted to let you know that we love your products.

My daughter has suffered from mild acne and nothing we tried worked. She has tried all kinds of antibiotics, Proactive, birth control, you name it, we tried it.

I happened to stumble across your website and thought we had nothing to lose by trying the A/R crème. It worked!!!! I've told so many people about your products and gotten quite a few people to try it. I just ordered some A/R crème for my other daughter's boyfriend. And, I'm getting to the point where I want to tell strangers about your product. If I see someone in the store with acne I just want to go up to them and tell them about Emu Oil. Anyway just wanted you to know.

Ellen B

My doctor has tried for 15 yrs to get my triglycerides down, but to no avail. Since I take 2 **Emu Gel capsules** or more daily not only has it made the triglycerides drop but has balanced all levels of my cholesterol counts. I am happy to report the latest Cholesterol reading was perfect! Total Cholesterol:199 LDL (bad): 107 Triglycerides: 109 and HDL (good):70. He told me he was amazed, never has he seen such remarkable readings. I did NOT change diet, in fact, ate many foods I shouldn't have.

I originally ordered this product to control the pain from my fibromyalgia. Since, I have discovered that it helps the pain for the fibro but also the pain from arthritis. It also is wonderful for cuts, bruises, etc for a speedy recovery with no scarring.

I'm so happy I discovered this product! Thank you Nettie!

Julie R.

I ordered **Redness and Blemish Control** last year. I am using the product for a year now and I'm very pleased with the results. The first 2 months my rosacea got worse but in the third month my skin improved dramatically. Thank you for your product and I will spread the word about your products here in the Netherlands.

Clark Borst, The Netherlands

Fantastic results with the miracle **Redness Control cream**. My husband has suffered for a number of years with rosacea and now with purple emu you have solved his problem gave him confidence back and his youthful looks. Thank you for this miracle forever grateful.

Ann Hopkins, UK

Comments:

I am ordering these products for our mobile chiropodist and she would like some samples for her clients if possible as she is very interested in products that use natural ingredients. Everything I have tried of yours has been fantastic, especially the **redness and blemish control** as I have suffered for about 5 years with acne rosacea and had been prescribed all sorts of things by my doctor. He has been amazed at the results I have achieved with your crème my skin has returned to its youthful appearance and is extremely soft. Thank you.

Carol M., [carol_milburn@.net]

PS: You may use my comments on your products .I am so thrilled that my skin is at last clear as it has been at least 5 years possibly more that I have been having different treatments from my G.P. and the hospital skin consultant and none of the treatments cleared up the condition. Once again thank you for a natural product that actually works

My order arrived safely last week but I have only just looked at my E-Mails

Thanks again Carol M., UK

Hi Nettie, just wanted to update you on my progress on using your product **Redness Blemish Control** and am so happy I tried it. If you recall I was skeptical on purchasing it since nothing ever seemed to work. My wife pushed me into trying it and am very thankful to her that I did. The results are outstanding and I am not kidding, you were right on giving it a few weeks to do its job. The rosacea is not gone completely but pretty close, it's the best that I or my wife has seen it for years. Once again thank you for your time and your product, feel free to use my notes to let other people who suffer from this stubborn skin disease see the light that Purple Emu is the way to go. I just ordered another jar and am hoping to cut back on application to every other day. I don't know what I'd do if you went into another business, I guess I would have to order by case. Thanks again.

Greg C., Grand Ledge, MI

I was injured in a freak accident and had surgery for three pinched nerves in my lower back, after which I had complications with ongoing pain. **EMU X** was a blessing in disguise for me !! Once applied, and my body heat rose from riding in a vehicle, etc., it was like having a mobile heating pad on my lower back and hip. **EMU X** was better than any medication prescribed for me.

I used the 2 oz. roll on - that way I wasted NONE on my hand and it was easier applied. I learned of **EMU X** at a Show in Covington, LA and have bought from the individual several times. However, recently I learned that only Purple Rub is available through them. I've tried it, but without the Capsaicin, it is NOT the same and does not give me the same relief. Please tell me that **EMU X** is still available for retail sales. I will await "Good News" from you. Thanks so much for your time and cooperation. I remain, Sincerely,
Brenda Black, MS

Subject: Re: Thank you!

No! thank you! I spoke with you before...and for me, money is extremely tight— however, I feel it necessary to invest in A/R Creme as it is the only product that works! I have tried literally hundreds of products for acne, yet none compares to yours! its a lot for me right now to even purchase this, as I really wanted the bigger one...but it will suffice for now....thank you again –

Rhonda C, West Palm Beach, FL

Hello. I have been using the **redness and blemish control** for about a week. So far the rosacea is almost gone. For about two years I have treated this with prescription cortisone with almost no results. The doctor just kept prescribing the medication even though I told him that it didn't seem to correct the problem. Again, thank you for an incredible product. The moisturizer does very well with the treatment. I found your site on the web, do you have a program on tv? Well ,Dr. Phil can give advice about just about everything on Oprah, of course not rosacea. Take care.

Kyle G. P., North Charleston, SC

From: charangel@.com (Charlene) To: rosacea-support @egroups.com

Hi!

I have been having really good luck with pure emu oil and my rosacea. I have been using it along with the Aderma Septalibour cleanser, and it has been working nicely. Much less redness and no new breakouts.

I decided I want to give the **Blemish Control Crème** a shot, and found out when speaking to the owner that there are now two different versions of the Crème. The new formula, called Redness & Blemish Control, has been created for highly sensitive skin. The crème has the same list of ingredients in the same order as the original, BUT has more added emu oil and less of the active ingredients for more sensitive skin. She said that she had complaints from several people that the original Blemish Control was too strong, so decided to make a new formula for more sensitive skin. I ordered the sensitive **Redness & Blemish Control**, so I'm keeping my fingers crossed that it helps with the breakouts and redness. A great addition is that when you order the Redness & Blemish Control, you get a complimentary Super-Rich Moisturizer Sampler :)

I have to say that I am impressed with Purple Emu's customer service, just wonderful. And also, their products are SO minimal in ingredients that the risks of flares/reactions are lessened in my opinion. I have yet to find products with so few ingredients, less to bother my face :) The lesser the better I've found!

Just wanted to let everyone know that there are now TWO Blemish Control versions. The new Redness & Blemish Control is not yet shown on the website, but it is available, you have to call and ask for it. It might be worth a shot for us really sensitive skinned people :)

Charlene :)

I have to tell you how wonderful your **Golden Magic** is. I have been using this serum for 2 to 3 years now and have loved how soft and smooth and wrinkle free my skin is. To make it absolutely worth every penny I have to tell you all my "age spots" and funny colored skin has faded into one beautiful spot free color. Thank you for such a wonderful all natural product.

Chris W., Chalfont, PA

The **AR Crème** was the only thing that we found that works on my daughters eczema. She has it all over her face and body. She has been trying everything! This is what she had used a few times before and we have found that it is the only thing that is consistently able to work for her.

Thank You,

Hollie & Brianne G.

Hi Nettie,

Just wanted to tell you what a huge improvement I have seen using your products. My face is no longer red, the acne is gone and the smoothness is returning. Thank you so much.... You have given me back the face I used to have!! (I do have a couple of more gray hairs though!)

Aimee G., Plainsboro, NJ

Subject: **Redness & Blemish Control** cream

Good morning Nettie!

I just got my **Redness & Blemish Control** yesterday and used it last night... I think I love this stuff! :) My face felt so cool and soothed...and it diminished my redness quite a bit too...needless to say I am thrilled to death! I'm sensitive and allergic to so many things that I was even afraid to try it...this feels better than any med I have used so far, and that's quite a few!

There are people in our support group starting to ask about **Redness & Blemish Control** and I only see 2 of us on that are using it so far...there is a section of our group devoted just to products that are used to treat Rosacea and I definitely think **Redness & Blemish Control** belongs on that list!! If you have time, look at Dr. Nase's website..he is devoted to research on Rosacea and from his site you can get to our group to join - and the list of treatments and skin care....hundreds of people read this list every day, it would really benefit them to have Redness & Blemish Control as an option for treatment.

I'll get off my soap box now...I'm just feeling really good about my face this morning and I had to share that with you!

Hope to keep in touch, Carolyn K.

I use you're your **emu oil** on my scalp. I have a full head of hair and I get dry spots that shampoo doesn't help. A little dab of emu oil and it is fine. I have purchased from you and will continue to. Lauris E Melgaard, larslongrun@.com

mounts@.net (Tom & Jenny M.) To: rosacea-support cc egroups.com

I ordered the **Redness & Blemish Control Crème** from www.purpleemu.com. I was a little skeptical because of the smell of it.... kind of like Noxema or Vick's almost, but nothing else has ever worked so quickly and without irritation or causing more breakouts. I'm impressed, and it takes a lot to impress me anymore in the skin care product department.

I have Dr. Perricone's Alpha Lipoic Acid Facial Firming Activator, which is a light cream product containing ALA (alpha lipoic acid) and glycolic acid. It was \$85 at Nordstrom. The sales person told me that it was wonderful for rosacea, which I had heard before, and I thought it was wonderful at first. I didn't really see any lessening of the blotchy redness (very much like Patti describes...white spots within the red spots) and it didn't help get rid of the bumps. My skin felt better-textured but I don't think the redness improved at all. There is also an ALA face wash and eye area product. The cleanser I think is around \$28 and I'm not sure about the eye product. Might be worth a try but be sure to buy it where you can return it. I plan to return mine to Nordstrom for my \$85 back.

Jenny M. :)

I had to write and let you know just how good the AR cream and Emu oil are (as if you had any doubts!). After about 5 days more or less all spots and bumps had gone - each day my skin is slowly returning to the way I remember it used to be - clear and supple!

I can't begin to tell you how much this means to me - my self-confidence had plummeted over the last year especially, when my rosacea became really inflamed and angry - I feel like I've got my "spark" back, and my joy - THANK YOU SO VERY MUCH for this amazing product.

I am telling everyone I know about it - especially friends who have children with eczema - I think the fact that all your products contain entirely natural ingredients is a huge selling point - so expect some more orders from Bristol! - I will be ordering other products myself!

Once again, thanks, thanks and thanks again! !

Best wishes Heather

Hi All,

I am a 36 year old male based in the UK and I have suffered with KP on my chest, back, shoulders and upper arms for most of my adult life. Like most of you it has been mis-diagnosed throughout my life and I have tried all sorts of different treatment options with varying results. So far, nothing has really worked, the worst "treatment" was a prescribed steroid based creme that made things a lot worse, other treatments included urea based cremes, moisturisers, natural oils, you name it, I've tried it! So far nothing really works, I might get a minor improvement for a while if I'm lucky but the KP just fights back. I have noticed that my KP tends to get quite irritated after air travel and as my job involves an awful lot of air travel, it was constantly bumpy, itchy and hugely frustrating. To make matter worse, the last treatment option (Calmurid) suggested by my doctor actually irritated the condition further so I was really at my wit's end with this.

Now, just to set the scene, I should state that I also suffer with rosacea on my face. Originally this condition was confused with the KP and I had very little luck keeping it under control with multiple flare-ups. However, about 10 years ago my dermatologist recommended that I tried 'Purple Emu Blemish Control', an all-natural treatment. I was originally sceptical but this remedy has worked wonders and kept my rosacea under control to the point that you wouldn't know I suffered with this skin problem. It is amazing stuff.

Anyway, I have noticed over the years that if my KP was getting really irritated I could use some of the Purple Emu Blemish Control on it and it would calm down and eventually dissipate. Sure, it would eventually come back, but it really cleared it up fast and it stayed clear for ages. The problem is Purple Emu Blemish control is quite chalky and really quite expensive, also, as it is so important for the treatment of my rosacea, I was always reluctant to use it on the large areas of my body affected by KP. However, needs must and I found myself using quite a lot of it recently as it was hugely affective at keeping the KP under control even with all the air travel I do for work.

So, I recently wrote to the lady (Nettie) that set up and runs Purple Emu in the USA and I suggested that a

lower cost, creme based product with the same healing oils that they use in their Blemish Control might make a great treatment for KP. Nettie thought this was a great idea and suggested that I tried the Purple Emu After Shave Creme as it is essentially just that, a creme with the same healing oils as they use in their blemish control, it is a lot easier to apply to large areas of skin and significantly cheaper to buy.

My tub of Purple Emu After Shave Creme arrived a couple of months ago and I immediately started to use it on the areas of my body affected by KP. I used it every day at first and the KP vanished completely after a week. Yes, you read that right, it vanished completely after a week! Once it had cleared up I found myself using the creme once or twice a week in order to prevent the KP from surfacing again and so far it just works, no bumps, no itching, no redness - Nothing. The tub is nearly empty now so it has lasted me about two months and the fact I am just about to order some more has just prompted me to write all of this up.

So, fellow KP sufferers I can only urge you to try this stuff, it worked wonders for me and I sincerely hope that it does the same for you. Just do a Web search for Purple Emu and you'll find their website. I would be very interested to hear from other KP sufferers that have tried this creme as I think I may have just stumbled upon a really effective treatment here...

Luke, UK

I love the purple emu **Lip Balm**, it leaves your lips smooth and taste great. I've tried other lip balms and when

you lick your lips you get that horrid taste, this one seems to penetrate into the skin and last longer.

Sincerely,

Kandy R., Bend, Oregon

My sister has a bad cold sore, will the "straight" emu oil help while she is waiting for your cold sore formula to arrive?

By the way, your **Redness & Blemish Control** formula has COMPLETELY CLEARED UP MY awful case of acne rosacea...it is truly unbelievable...a miracle if you ask me. I am thrilled with your product!

Thank you, I was so skeptical because I had tried so many different things...your customer service person, Nettie is her name I think, was so incredibly patient and helpful.

Sincerely, Vicki J., Newton, NJ

I suffer from Rosacea, but since using **redness & blemish control** & **Super rich moisturizer** with **soft as silk cleanser**, I have been clear for the last 2.5 months. I have just ordered more products. Maybe you can put a sample of Golden Magic in with them. Thank you for giving me more confidence and receiving compliments about my skin, which hasn't happened since I was in my twenties! Julie Barry, UK

• Our acupuncture therapist is using **emu oil** as a carrier for many of her special Chinese herb formulas. She is very pleased with the results from these blends.

Deena Gentle, Hillsboro, WI

Hello,

I want to tell you that your **Redness and Blemish Control** is a wonderful product that does exactly what you say it does. Like most rosacea sufferers, I have tried a number of different treatments and your product is simply the best. I am now proud to show my face in public and no longer hide in shame. Thank you, thank you, thank you!

Scott B, San Diego, CA

I have rheumatoid arthritis, osteoarthritis and neuropathy and use your **Purple Rub** in the morning and evening on my feet and any other places where I might have pain. It is wonderful! I can buy it locally but cannot always get out to the store to buy it. I am happy that I will be able to buy it over the internet now. I found your website from looking on the 4 oz container.

Laura P., Camp Hill, PA

Subject: A Thank

You Note

I have been using your product PELbasics for **redness & blemish control**. My face had begun to get red and hot several weeks ago, and I was concerned. I began using the cream less than a week ago, and my face is 90% better. This cream took away the heat the skin on my face. The puffiness is gone. The redness is all but gone. My skin feels GREAT, and looks very good also.

Your product is WONDERFUL.

I praise The Lord that a local health food store put me onto this product. Sincerely, Elaine N.

I have rheumatoid arthritis complicated with Sjogren's (VERY dry skin, dry eyes) I get deep cracks on the ends of my fingers that are very painful, and sometimes crack deeply enough that they bleed. Since I have been rubbing the **Purple Emu oil** on every night, they are MUCH better, and I usually start the day with nice soft, uncracked fingertips! Thanx for all your research and such wonderful products, Nettie! Joy Kamradt (jajkam34)

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of **emu oil** 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen

sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris R.

Subject: Happy Customer

I've had Rosacea since I'm 17 years old. I tried everything! The dermatologist had me on topical antibiotics, oral antibiotics, accutane, nothing seemed to work. I felt like I was damaging my health to rid the rosie cheeks and bright red nose. Then a friend recommended your product, **Redness & Blemish Control Crème** and emu oil. Two weeks! ! The redness, the soreness is gone. I had no side effects. I am now 28 years old and finally can *lift my head up high* and not worry about the next person that I encounter will lecture me about getting so much sun. I now recommend your product to others with the same problem, the thing is, they see the proof in me.

Thank You!

Sincerely,

Marcia H. , Schuylkill Haven, PA

We get insect bites frequently, and applying a dab of the **oil** to the itch makes it disappear within a few seconds, and it works great on mosquito bites! Glenn was outside in summer shorts a few days ago and disturbed a huge hornets nest. He was stung at least seven times on the legs and a couple of places on the face and hands. He came rushing in the house and coated all the bites heavily with Emu oil. None of the bites ever swelled up, and he was able to proceed as if nothing happened!

We have found that **Emu oil** will cut the pain and itching of bites, stings, and even poison ivy and oak. We have a friend who uses Menthol-based products on his shoulders at night, so I asked him to put the menthol on both shoulders, and then apply the Emu oil to one shoulder and report the results back to me. He dropped by the next day to say that the Emu oil drove the menthol deep into the tissues and he could feel the difference between the two applications.

Peggy & Glenn G. Camas Valley, OR

Hi Nettie,

I just wanted to take a moment to tell you what a great product you have. Ordering it was probably the smartest thing that I have ever done in my life.

About 4 months ago I had a breakout of dermatitis and acne. I never had this problem in my life. The rashes on my cheeks have been so severe, that a lot of days, I would not want to leave my house. People would ask me what happened to my face? I could not even look people in the eye. I have been using so many different creams and nothing really worked. Sometimes the topical steroids would literally hurt my

face. My face would be in pain. I have been to like 5 dermatologists. I have been to Acupuncture. I have been to A Nutritionist. I have been to an allergist. All totaled I think I have spent well over \$2000.

With 2 days of using your **Redness & Blemish cream**, symptoms were better. And within 5 days it is almost all gone.

You have such A wonderful product. I hope you make millions from it. I am eternally grateful.

Sincerely, Mike S., Delray Beach, FL

The **emu oil** was awesome at stopping the itching and preventing stretch marks while I was pregnant.

Jodi H., Macomb, IL 61455

Subject: Re: Thank you!

I'm really, really enjoying these products. A cosmetician at a dept. store cosmetics counter recommended them to me because I was having trouble camouflaging my acne and hyper pigmentation with foundation and/or concealer.

I've been using your products for over a month now and the A/R cream has managed to almost totally undo in a short amount of time what has been on my face for YEARS ! ! ! ! It's incredible. I've had blotchy, dark patchy, broken out sometimes, and irritated skin since at least the age of 13. Well, I do believe these products are leading down the road to recovery. I may even be able to go w/o foundation with confidence for the first time in my life. Thanks Purple Emu Ltd.!!!

Kim P, Houston, TX

I use the **Emu oil** to remove pine pitch from skin and dog fur. I used to use rubbing alcohol which stings if the skin is scratched or broken and it is safer for the dog who will often lick the fur that was just treated. I also use the oil mixed with sugar as a special exfoliating treatment for dry weary hands and feet! I use the Blemish cream on insect bites and poison ivy as it draws out the impurities and causes quicker healing.

Thank you!

~Penee

• Two years ago I had a triple by-pass. Six months ago my feet swelled to the point that I could not wear shoes any longer. Doctor recommended Support hose. I tried that for two months. Now the ankles swelled underneath the support hose, and the blood or liquid could not return upwards. The huge swellings turned purple off and on. Doctor said, "Nothing else we can do. Once the veins are removed (harvested, he said) that's it." He recommended a specialist, but did not hold out much hope. What to lose, right? I asked my herbalist daughter to prepare a circulation-stimulating Emu-oil product. She did. My wife, who massages my feet daily with **Emu-oil** swears that my feet are a far cry from what they looked like. I did not contact the specialist, since the improvement in my circulation became glaringly self-evident. At the moment-- no more support-hose, no more hugely swollen feet.

Henry, Charlottesville VA

Subject: more great results!

Hi Nettie,

As promised, I am just letting you know how my Mum is getting on using the **Blemish cream**. Well, she too has had astonishing results - she loves it so much and it has made such a difference to her cheek area where she had flare ups of Rosacea. As a previous Rosacea sufferer, I know you will understand how down she used to feel, even when she didn't have an active flare up, her cheek area was always pink/red, almost like there was a permanent mark where the Rosacea had been. You may remember I mentioned she was staying with me when the cream arrived. Literally, within 2 days of use, she saw improvements. Now, she is not wearing cover stick as she simply doesn't require it.

I know you will appreciate more positive comments and it's a pleasure to let you know of what great results my Mum is also experiencing.

As before, please feel free to use any of the above as encouragement to others to try your wonderful products.

I hope you have a really lovely Christmas and New Year. Kindest regards,

Andrea

Morning,

I wanted to give you an update on just how wonderful I think your **Protective Sun Crème** is. I am also glad you sent along the sample of Super-Rich Moisturizer. I tried the **Protective Sun Crème** the first day alone. But it seemed hard to spread on my face. Then I tried putting some Super-Rich on one finger and Sun Crème on another. This made it go on just fine. I do love the tint and it is not too dark for my fair skin, (since I had to stop the sun tanning). I have now used both on Monday, Tuesday and also this morning. I went out and worked in the yard yesterday and my face stayed cool. I just love these products. My skin can still breath. With all the other products I have **tried** to use I felt like I had a mask on my face. I will be placing another order soon for the full size of Preventative Sun Crème and the Super-Rich Moisturizer. We travel a lot and I will be in Canada for 14 days in the mountains and seashore and then in Sept we go to Hawaii. In-between we go to Golf tournaments so you can see I am out side a lot and really do need a good sun screen that won't make my face turn bright red as soon as I get even a little warm.

Thank you so much for your wonderful products. They are the very best I have found for my rosacea.

Thank you again,

Julie F.

Dear Nettie,

I ordered your Blemish Control as well as your Redness & Blemish Control and your Super-Rich Moisturizer last summer. Now I have to write to you and thank you for these excellent products!

Back in the mid nineties, my husband, who is an insulin dependent diabetic, had an HDL of only 35. When we purchased our first emus and became familiar with the emu products, he started taking emu oil gel caps.

His doctor only checks for cholesterol once a year but, the next blood test after he started taking emu oil gel caps, his HDL was up to 65. This past Spring his HDL was 85 while his triclycerides are only 51. Not bad!

We are totally amazed since, though he does eat a good diet most times, peanut butter, ice cream and cookies are a staple in his life.

Also, his resting blood pressure averages 85 over 65 sometimes even lower.

My numbers have been very good through the years but, I have not had them tested recently. Joy

Joylene R.

Brodhead, WI

Hi Nettie,

Great news. I've been using the product (not even daily) for just over two weeks now and my face is back to normal. Everything else I'd tried up to now had been completely useless. Thanks for developing Redness & Blemish Control - a solution to a very annoying problem.

Many thanks,

Barry O'S. Brisbane, Australia

Hello folks! I just wanted to let you all know how much I enjoy your products and how much they have helped me. I started suffering from rosacea when I turned thirty. The doctor gave me a prescription cream, but to be honest, it didn't do a thing to help! Then by chance, while at the Maryland State Fair, my husband saw a booth promoting emu products. He noticed that one of the skin products said it could help reduce the severity of rosacea. Well, had nothing to lose, so I purchased a jar of the Redness & Blemish control (lite) and a small bottle of emu oil. I saw a marked improvement in my skin condition after a month (after a bit of exfoliation!). I have been using these products for about 1 1/2 years, and my skin looks fantastic. I have now taken to using the Super-Rich moisturizer in winter (when the air is so dry!), and it is the only moisturizer that won't make me break out. I have been recommending these products to friends and family, especially my cousin, who has been plagued with terrible rosacea. He has finally started using the products, and I am sure he'll be happy with the results. My mom is hooked on the face cream.

Thank you for making these products!

I have one last comment. There are emu farmers that do sell your products retail. Perhaps, in order to help local small business, you could have a link that would let people know where the closest retailer of your products is located. I know a few emu farmers, and I am sure that people would purchase your skin care products from them if they knew they were a short drive away. Perhaps this would also promote emu products even more. Just a suggestion!

Again, thanks for the wonderful products!

-Susan H.

I am looking SO forward to getting my hands on the emu oil for my three year old daughter. She received stitches on her beautiful face last Friday. I know from first-hand experience that the oil will prevent her from scarring.

After using **emu oil** faithfully on a second-degree chemical burn on my face, I have NO scarring – nothing at all. There is no evidence that there was once a 1” X 1 ½”hole over my right cheekbone. Absolutely amazing. So, thank you for continuing to make such a fantastic product. It is truly wonderful to know what I am getting with your product and that your oil is top-of-the-line. My baby girl will soon be on the mend!

Sandy. Sellersville, PA

Many thanks for your **Purple Rub** pain relief cream. I purchased it for pain control with my degenerative disk disease in my neck. Imagine my surprise when I found it works for all sorts of pain. A sore muscle, a tender elbow, my achy arthritic hands. I haven't found anything it does not work for.

Thank you again for this marvelous product.

Dave W. Perkiomenville, PA

Nettie

I thought I should write to tell you how happy the discovery of you products have made me. My acne rosacea has been a part of my adult life for about fifteen years but has become more pronounced these last five. The redness has always caused comment from people (how rude!) but it was the spots and pustules that were more of a concern to me. I have made many trips to the doctors, in the first instance for a diagnosis, but felt quite guilty because it was not a life threatening illness. I found that antibiotics would clear the condition up in the short term, but I didn't want to take them long term. I spent lots of money on cosmetics, pills and potions but all to no avail, then my mum read an article in a magazine in which a gentleman told of his wife's use of your products and how amazing the results were. I have to say that I logged on, in the first instance, because it was such an intriguing name! Aren't I so glad that I did. The products have done exactly what you said they would including a boost of self-confidence. The spots have disappeared completely and I no longer have a red, burning face. This has been the first year that I have been able to walk along the coast (wind, sea breeze etc) and not return indoors with a burning face and nose. I even think I would be brave enough to be seen without make-up (maybe not mascara, don't want to scare anyone!) such is the condition of my skin. So many, many thanks, also for the efficient way the products reach me. Please, please always keep me supplied.

Julie M., A very satisfied customer.

These products really work. I've had rosacea for over 20 years and within a month I'm just about rid of it. Mt skin looks years younger and my confidence has returned. Thank you so much.

Jackie McMahon, UK

PS: I must add that the **Redness & Blemish** cream has improved my skin unbelievably and this, despite the fact that I went on holiday for 3 weeks and indulged in all things I know sets the rosacea off!!

I have to thank you so much. My brother has been using your A/R cream the last 2 weeks for his acne and inflammation and has had much success with it.. to say the least! He would never go to a dermatologist in embarrassment and never used good skin care products that are out there. So i urged him to try you're A/R cream and give it a chance, he did and he is all smiles for it!! I feel so good about myself finding this for him..

As for me, I've been using the 100% pure emu oil on my rosacea face the last month. It is truly amazing and I will never do without this the rest of my life. My redness is like gone when I use it nightly, the flare-ups are gone as is the irritation... It helps everything else absorb so well... My skin seems to be thickening as well, yes :)...

I have also been using this oil on my scar that I have from a past hernia surgery, it is fading dramatically.

I have been using it on my stretch marks on my back, they are almost 100% gone in only about 2 weeks of use, incredible! ! Also on red spots from a past rash, also fading big time :)... even my parents have been begging me for this oil before bed for their dry skin.. we all love it and wont be without it.

Thanks for making this available to us all. Bye and I'll be in touch

Mike L, AZ

Dear Nettie,

Having been able to obtain the **redness & blemish** cream through John & Karen Wootton it is very helpful having a UK outlet and I would like to say they are such a helpful couple nothing too much trouble and having tried so many treatments for my rosacea with no improvement. I am now pleased to say that having used the **redness & blemish** cream for under 7days my face is now perfect again and I am so pleased I can now go out and about again without feeling that people are staring at me as my face was such a mess. Many thanks again for your product, also as I am writing I have a friend and she suffers with eczema and I was telling her about emu oil and I wonder if you could suggest if any of the products would be of help to her I was wondering if the emu oil would help.

Would you be kind enough to let me know if any of the products would help her as she has eczema around her eyes and on her face.

Awaiting your comments.

Many Thanks Delia S., (delia@.co.uk)

I just wanted to take the time to let you know my results from your product.

I have suffered from rosacea for several years, tried all the doctors treatments and was at the point of choosing some type of laser surgery.

As a last resort I decided to search the web for some treatment.

I found your **Redness & Blemish Control Crème** and as the rosacea caused severe drying and flaking, I also purchased the Super-Rich Moisturizer. It has only been a week and the difference is unbelievable! I feel like I have a pretty face again. Thank you so much for the development of these products.

I will certainly continue to support your company in future skin care purchases I make.

Thank you! Thank You!

Stacy B., Sarasota, FL

I have sent you an email in the past praising **Redness and Blemish Control** for treating my Rosacea. It continues to keep me free of rosacea breakouts for over nine months! I apply once a week and use the Super Rich cream daily. I couldn't be happier!

I did want to tell you of my recent "new use" discovery. Now and again I get a mouth cold sore, usually from overexposure to sun. The last two times, I decided to try my Redness & Blemish Control. With in four days, it was virtually gone. None of the extreme swelling and redness ever appeared! It quickly dried up and never became overly *dry* or scabbed over. Just a quick healing!

Thank you again!

Stacy B., Sarasota, FL

While playing tennis, I started having pains in my hand and wrist to where I couldn't even hold the racquet any longer. I heard of Super Blue Stuff, but preferred an all-natural product. **Purple Rub** worked great! After only one week, the pain was one and my tennis game is back!

J Greer – Harleysville, PA

Subject: Thank you!

I just don't know how to thank you enough for offering the **Redness and Blemish control Cream**.

I have suffered from Rosacea for years, especially around the nose. I have tried countless formulas with disappointing results. If I get a flare, I apply it an within one minute, literally, I look great and feel more confident about all aspects of my social life.

As a physician who treats pain patients, I understand the need for quality of life improvement. This product has certainly increased mine!

Sincerely,

Michael H., MD

A visitor to our ranch showed us his psoriasis spots. We applied **Emu oil** to most of them and watched them turn from gray crusts to smooth pink flat spots right before our eyes! He left with a large amount of our oil, and his psoriasis is getting better every day!

Peggy and Glenn G., Camas Valley, Oregon

Dear John

I thought it time I wrote and told you how pleased I am with your product. I am now only using a small amount once a day and sometimes only every other day and my rosacea is completely under control. I am recommending it to anyone I know who has this problem.

I didn't experience an increase in spots at the beginning as you warned in your information sheet. However what nearly made me give up was the exfoliation, which went on for nearly four weeks. I was concerned that my skin was drying out with the subsequent increase in wrinkles, but I needn't have worried - it eventually cleared up and my skin is fine now. I only tell you this because it might be worth including in your sheet that this could happen.

I am so glad I visited your website and took a chance with your **Redness & Blemish Control cream**. Thank you.

Kathryn L. (Mrs) UK

Nettie

I just wanted you to know that the PEL **super rich moisturizer** is INCREDIBLE STUFF!! Never used anything that is so nurturing to my skin -- it lasts all day, **no** drying during the day—still feels supple in the evening before I wash my face for bed... and I lather it on, sparingly of course, after washing... then feels great when I wake up! the BEST moisturize EVER!! Thank you!

Tammy S.

Subject: compliments on your products

Hi! I LOVE** my skincare products!! After trying Golden Magic the first time, I thought I might like it... after a week I knew I liked it. Now, months later, I know I LOVE it! It has worked great with the **AR Crème** and **cleanser**, and the system has improved my complexion immensely. Thank you, thank you!

Nasreen K, Mifflintown, PA

Hi Nettie,

I have been using **Emu Oil** for several years to help me control my seborrheic eczema (dandruff). I

generally will have a significant outbreak about 6 times a year that can last anywhere from 1-6 weeks and it be very embarrassing so by rubbing a little Emu Oil after I wash and dry my hair it prevents flaking throughout the day. I absolutely love this stuff. Jacqueline~

Dear Sir or Madam,

Your marvelous cream saves me from taking nasty tablets, which have nasty side effects. I am 79 years old and it took me a long time to find you. Many thanks

Yours Faithfully,

D. Holloran, UK

Glenn's brother, Ernie, had a triple by-pass heart operation a couple of years ago, and as he is an Emu breeder, and knew we used it, he started applying the **emu oil** because the metal plates put in his chest to hold the stitches ached when the cold air hit. On a routine visit to his surgeon he was asked why his scars were disappearing 50% faster than the rest of him patients.!

Peggy and Glenn G., Camas Valley, Oregon

• My husband, J.V. had three cuts on his arm from moving birds. He put **emu oil** on two cuts. He now only has one scar! There's no doubt in my mind the worth of this bird and the oil it produces.

Peggy & J.V. Finley Grandview, Texas

We have been using **emu oil** for about twelve years and we always have a bottle in the house, we order it by the 16 oz bottle and it lasts us one year, I use it as a moisturizer on my skin on my hair, we use for ashes and pains rashes you name it. My husband has allot pain on his knees and we rub emu oil and with in minutes his pain is gone. Emu Oil is a miracle oil, we love it.!!

ophygonzales1@.net

On the above-mentioned trip, Glenn had all of his upper teeth extracted by a Mexican oral surgeon, and immediate dentures put in. The pain (despite medications given him by the surgeon) got to be too much to bear, so we stopped and removed the dental plates put in less than an hour before. Glenn's upper gums were heavily stitched in several places and totally swollen, so I recommended he keep them out as the bleeding had abated, and Glenn used Q-tips to coat his gums with **emu oil** for the next three days. The pain was gone by day two, and on day four he returned to the oral surgeon for a checkup by the surgeon, who told him he had never seen stitches heal so fast, and the surgeon proceeded to remove all the stitches (usually one has to wait at least two weeks!). I found that when my dentures irritate my gums, putting Emu oil on the irritated spot stops all pain.

Peggy & Glenn G., Camas Valley, OR

Hi Netty...

I am at work so its not easy to go online too often, but I jumped into your site and read the rosacea letter from you...THAT IS ME!!!!

When I was 48 I had a hysterectomy and the day after I came home from surgery, I then had the dreaded rosacea. Now every doc tells me no way its related...

I think and know it is...the hormones changed and so did my skin....!

I am happy that you have had great results with this and if you could send me a sample of the face cream to try with my catalog I would be so grateful!

Thanks again,

Cindy K.

I ordered your **Blemish Control** as well as your **Redness & Blemish Control** and your **Super-Rich Moisturizer** last summer. Now I have to write to you and thank you for these excellent products!

My oldest daughter started having teenage pimples some time ago, on her forehead, nose and chin. I gave her the **Blemish Control creme**, a bit reluctantly at first, fearing it would be too strong for her young skin. Now, after two weeks of treatment, the results are simply amazing. Her skin has cleared up beautifully and she hasn't experienced any side effects at all. Also, the cream seems to stop new spots from forming. Her face is looking so good now, and I am so grateful to you.

As for myself, having had severe acne from the age of 12, I think I have tried every cream, antibiotic and potion there is out there. They all had very troublesome side effects on my sensitive (or sensitized?) skin. After the births of my two daughters, my skin got back pretty much to normal, except for some occasional breakouts. And I have to tell you, that NO OTHER CREAM has ever worked so well on my skin as your **Redness & Blemish Control cream**! Not only has it helped my skin recover, but it seems as it has "cured" my skin from breakouts, since I haven't had any severe ones in more than six months. It's nothing short of incredible. I wish I had known about your creams when I was a teenager - that would have prevented me from having all those acne scars and ruddiness now... But I am so pleased that my daughter won't have to go through the same thing as me.

I also want to thank you for your excellent **Super-Rich moisturizer**. I have used some now for a couple of days, since the Swedish winter is very dry and cold this year. And I must say I am stunned at the results my skin is showing. Not only does your moisturizer feel good, it makes my skin look very smooth and rested. I will place an order for the full size jar very shortly.

Thank you so much for making these wonderful products. I am eternally grateful to you, and I will recommend you to everyone I meet.

Sincerely,

Kristina S., Sweden

I JUST HAD TO WRITE AND TELL YOU THANK YOU.

I WAS GIVEN A SAMPLE OF PURPLE EMU OIL TO USE FOR MY ROSACEA AND LOVED IT. I NOW USE THE REDNESS AND BLEMISH CONTROL, THE SUPER RICH MOISTURE AND THE OIL AS TREATMENT FOR MY SKIN AND THEY ARE GREAT. MY SKIN HASN'T LOOKED THIS GOOD IN YEARS.

THANKS AGAIN FOR GREAT PRODUCTS.

Have to give you this tip on preventing bedsores to begin with. My mother was recently hospitalized and when her regular Physician was unavailable another doctor was assigned to check on her. The new doctor was blown away at the "condition" of her skin. Mom has been bedridden for years but her skin looks like she is anything but confined to her bed. I'm not sure the new Doctor believed me but the only thing we do is to rub her down daily with EMU OIL !!

An ounce of prevention has saved Mom a ton of pain over the years.

Greg M., Georgetown, GA

• Our golden retriever had a bad "hot spot" rash on her neck this spring -- the flesh was red and oozing, the fur was gone, and she acted sick. After a few applications of emu oil, she was visibly more comfortable and the rash healed right away.

Deena , Hillsboro, WI

I just wanted you to know that the PEL super rich moisturizer is INCREDIBLE STUFF!! Never used. anything that is so nurturing to my skin --it lasts all day, no drying during the day—still feels supple in the evening before I wash my face for bed... and I lather it on, sparingly of course, after washing... then feels great when I wake up! the BEST moisturize EVER!!

My name is David, and I just wanted to thank you! I am 14 and I have had Acne starting at the age of 12. I have tried Proactive which worked but it took too long to apply. This one step treatment is the best ever. I have an occasional pimple here and there but nowhere close to before. I tell all my friends to go to PurpleEmu.com for the best Acne treatment. I think everyone should try Purple Emu because there is nothing to lose except your Acne!

Thanks A Lot, David

I received the package today and am very pleased. I am pleased with the Protective Sun Crème , it works great for me as a day-to-day "makeup", it goes into my skin and just disappears. I've never found a chemical "suntan" product that does not break me out into huge hivelike eruptions (on my FACE of all places!) when I'm in the sun: the zinc oxide is the only product that seems to keep my skin looking good in or out of the sun, so I certainly hope your zinc oxide sun protection products stay on the market!"

Carol V. University Place, WA

Subject: Re: by the way... Nettie:

For the last 10 years or so I would often get a condition called episcleritis in my eyes. It's an inflammation. It is also very painful. In the last couple of years it has happened more often. I kept returning to the ophthalmologist and he would say they really did not know what causes it. They would always say it's related to the arthritis gene.

They would give me steroid drops to fix it, but when I kept going back, they warned me that the drops could cause cataracts with prolonged use.

I also had inflammation in my stomach. Once again the doctors said it was basic gastritis and tests revealed nothing.

I later happened to see a television show about emu pills being used in Australia to help Arthritis patients. They said it helps fight inflammation. I decided to try them!

Wow! I take **2 emu pills** in the morning and occasionally in the evening. If I feel the episcleritis coming, I take them, and within an hour I am feeling relief! I have never had to use the steroid drops again. I also feel much better overall.

I love these pills!

Patrick H. Atlanta, GA

I have to tell you that after reading an article about using oil on you face to stop blackhead formation I had to try it with **emu oil**. I just made sense that the oil would keep your pores clean and too slick for anything to remain behind and form the blackheads.

TA-DA – the emu oil worked. Not only does it do a dynamite job of moisturizing my face while it removes my makeup – it helps keep my skin amazingly clear.

Hammy, Sebastian, FL

I twisted my neck and could not walk without pain, so I applied the Emu oil to the neck base, and all the affected areas, especially the kneecaps and feet, wrapped my neck and kneecaps in plastic kitchen wrap to seal it in, and put socks on my feet to seal in the oil. Discovered during the process (insult added to injury) **that I had a painful in-grown toenail (my first ever)**. Overnight, I slept in plastic wrap and socks, and not only did the pain stop by morning, but I could move my neck and body parts without pain. I did not even think about the in-grown toenail for close to week, and while reading an article on the Internet about the Emu oil's uses, **discovered in-grown toenails listed as one**. At that moment I realized I did not have any further problems with that toenail!

Peggy and Glenn G., Camas Valley, Oregon

Thank you for your tip to use my **AR Crème** for my athletes Foot. How cool ! Not only have you cleared my skin but you took care of my feet with the same cream. It's a multi-purpose wonder!

Tina W., Sebastian, FL

Subject: Thank you!

Nettie - just wanted to send you a note to say thank you for helping me through the start up period with the **Redness and Blemish Control** for my rosacea (granulomous type) You convinced me to keep going when my skin turned very dry (I looked look like a piece of parchment when I first started the cream) - and you were absolutely right! My skin is now the best it's been in years (and I'm 56!). The rosacea is gone, the bumps are gone, my skin is soft and not dry - and all I do is take my makeup off with your **Emu Oil**, a hot washcloth, put on the redness control (at night only now!) - for the day a touch more emu oil under makeup and your **Super Rich Moisture Cream** for my neck (it is a little too rich for my face). I put some Redness Control on a friend the other day who had a nasty patch of redness on the bridge of his nose and above his eyebrows which had just flared up. As we sat and talked, the cream worked to decrease the redness by half in only a few hours!! By next day the red was gone. He is amazed.

I just can't get over that there is something out there that works and yet the medical profession is so ignorant about it (or just want to keep throwing business to the pharmaceutical companies).

Again, thank you! I will never be without this cream again

Susan R.

Dear Nettie,

I use **Emu Oil** as a nighttime moisturizer on my face and have had several people tell me how beautiful my skin looks. I have been using the oil for about 5 years and will continue to use it for many more.

Donna G.

Dear Purple Emu,

At 69 years of age, my Mother began to break out with a horrible case of diagnosed Rosacea. It seemed that any type of stress and some foods would stimulate an outbreak of ugly, painful, red oozing acne type lesions around her nose, mouth and cheeks. During these outbreaks, she would isolate herself at home for weeks, away from family and friends and it would take more than a week to even begin to clear up. As soon as she would finally look normal again, she would have another episode. She was actually handicapped in so many ways.

The doctor's tried several prescription medications, diets, creams, but nothing worked. She also bought so many, over-the-counter preparations, which were supposed to help acne sufferers, these turned out to be nothing but a waste of money. This situation went on for a couple of years.

I owned several Emu and out of curiosity began to research the benefits of their oil when I came across "Purple Emu" on the internet. Out of desperation, I ordered your **Blemish Control** for her. WOW !!! It was a miracle !!!

She began to use your product on her lesions and within a couple of weeks was totally cleared up! I am so happy to report, she is now 76 years old and has NOT had another sign of Rosacea, skin lesions, or any problem with her face since she began to use her first order, so many years ago. Once every month or so, she will do what she calls "a little maintenance application" with the **Blemish Control cream** and that's it. She's not even broken out or having a problem, it's just that she NEVER wants to risk going through that horrible ordeal again. The jar is small but it lasts for so long. I just

ordered her third jar in 5 years! A little bit really goes a long way. It appears your cream has completely cured her.

Your Blemish Control has given her life back to herBless you for your research and work in this field.

Mrs. Chance W., Griffin, Ga

Thanks to **EMU OIL**, my husband and I can walk again without pain! I just can't believe what it has done for us! Many, many thanks for your wonderful products!

I think it is just great the way you acknowledge your e-mails! It makes me, as your customer, feel special.

Shirley A M., Mendon, MA

Hello Nettie. I want to say thank you for the fine products. The blemish cream is superb. Here is some info for you. I have been trying gio flex for some arthritis in my hands, since I am a Musician, Guitar player, need some relief. I tried the sample sent with the cream and have ordered more. I put the **Purple Rub** on My left hand and the other brand on the right.

You are going to love this. Complete flexibility for the left and limited for the right. Again, a super product. It is always good to Believe that the People that make the product, Believe it Themselves. Thank you.

Kyle P., North Charleston, SC

I have suffered for years with muscle spasms in the back, usually one of these bouts last 5 or 6 days, the only relief was from a prescription muscle relaxer, I don't know if they actually helped or just made me sleep through the misery. About three months ago while building fence, I pulled a muscle in my back, this is generally the beginning of several days of suffering. I had my back rubbed with a Sports Rub followed in an hour or so with pure **Emu Oil**, that night I went through the same routine. The next morning my back was stiff but after a couple of hours I was able to get back to fence building, maybe at a little slower pace for the day, but by the next day was at full capacity.

Don A., Dailey, WV

I use it for pregnancy and I get NO stretch marks. I travel all the way to Jackson, CA to Sutter Amador Hospitals gift shop to get your **emu oil**. I am now buying it for my friend who is pregnant and uses it all over her stomach, thighs and breasts, She is 7 months and has NO stretch marks! It is a miracle oil!

Anissa M. Long Beach, CA

Please note how pleased I am with all the products. I used the **Emu Oil** on a badly cut finger. While washing a Pyrex disk it broke into 3 pieces and 2 of them sliced and cut 1 finger badly. ER had to put gelfoam on it and I had to keep it dry for a week. (alt wouldn't stop bleeding as many layers of skin were cut [sliced]. After that time frame I started using the oil and you can hardly see anything (markwise) on the finger. My boss said I'd have a scar.

Happy Spring

Mary Ann P.

Hello,

luckily through a Belgium friend of my sister I heard of your products and was very surprised when I found that I could receive the products from you in Germany by paying regular and not horrendous shipping costs from the states - first of all thank you for this!

I am a 28 year old suffering of acne and have tried so many things without a result. With the products and medication I used I could only notice my skin getting more damaged, being dry, red and flaky, enhancing the wrinkles I am already trying to avoid around my eyes, or getting thinner by using cortisone crèmes. The worse it got the more I tried, only to find my skin has turned even worse than before again - a vicious circle! So I ordered your **Soft as Silk cleanser** and the **Blemish Control crème**. As expected, the Blemish Control crème made me break out on a few areas in my face really bad for about 3 weeks. Afterwards I could very fast notice that the redness of my face turned to a normal level and since then my problems with acne have been reduced to a fraction of how they were before and I am so thankful! I also used it on the spots I have on my shoulders which (without a break out) started to heal and disappear at once! This was amazing and thanks to your product I don't have to sweat in t-shirts this summer and can wear tank tops again! Additional to my order you sent me a sample of the **Super-Rich Moisturizer**. Loving the scent of it and the way it wears underneath my make up I will definitely get myself a big jar with my next order! I would like to say thank you for developing and providing such precious products that aid not only the problems with the skin but also the frustration one has to go through when suffering acne because nothing seems to help and you just feel like you look disastrous.

I still have a few questions to you though and hope you can help me. Enclosed to my order I received brochures in which I read that one had used Pure Refined Emu-Oil additional with the Blemish Control crème. Since the skin in my face still tends to have a few spots I was wondering if you recommend the combination of these two products/is there a higher effect when combined? Would the use of the Super-Rich Moisturizer still be required then? And which quantity of the Pure Refined Emu-Oil would last with the 2 oz-jar Blemish Control? Also, does the AR Crème work better on acne than the Blemish Control crème? And last but not least: Because I live in Germany I would like to order bigger amounts next time and am wondering if the products should be used within a certain time?

I am very thankful if you could reply to my questions and remain with best wishes, your German fan

Silke

Hi Nettie, The **AR Crème** for the acne is brilliant. My daughter loves it!! Thanks

Lorraine G.

Broughty F, UK

• I made an **emu oil**, beeswax lip balm last winter that worked better than any lip protection I've ever used.
Deena, Hillsboro, WI

I was just reading on the internet yesterday...looking for a natural solution to my Lichen Sclerosis condition.

I read where other women had used **Emu Oil** and it helped tremendously. I happened to have some Purple Emu oil that had been given to me about 10 years ago. I was afraid it may have lost its potency but I had to try it anyway. I've used it 5 or 6 times yesterday and about 5 or 6 today...and I tell you the truth...I cannot believe how it has helped. It works much MUCH better than the steroid cream that I've been on for 14 years. My goodness gracious...I'm ready to order a gallon of this stuff.

Please rush your current catalog.

I ran to my health food store this afternoon to see if they had any...they had something called EmuGold...I got it just because I was almost out of the old one I found yesterday...and I never ever want to be without this stuff again.

I also put it around my cuticles last night...and on the tip of my thumb where the skin gets so rough....my cuticles are soft and pliable and my thumb was soft as a baby's bottom this morning....no loose dry skin at all.

This stuff should be on OPRAH! :-)

Kay C., Metropolis IL

But Lichen Sclerosis is the condition I plan to use it regularly for.

And I marked 'other' above....someone gave me the bottle I had about 10 years ago...to help with a dermatitis condition. I only used it 2 or 3 times...I guess the rest had just evaporated (?) but I've used it now and Love it...

Love it...LOVE IT!!! :-)

I used **emu oil caps** and my nails improved within a month.

Gail W., Shoshone, ID

Just a note to say thank you!

I heard about your products through a magazine over here in England and tried your **blemish control cream** which worked wonders. Unfortunately due to a period of great stress my rosacea reappeared and so I turned to your company again for help. This time I have ordered and received the redness and blemish control cream. Within one week I had the clearest calmest skin I have had for years!

From the bottom of my heart I thank you! It is so lovely to be able to go out and look people in the eye without them wondering what is wrong with me

Thank you once again

Melanie H., UK

Subject: Extremely pleased with **Blemish Crème**

Hi Nettie

I just had to email and say that your product used for Rosacea is the greatest!

My face used to be such a mess....This will be the third time now I have used this and I cannot find anything else that comes close to working than this!

Also I always order the **Super Rich Moisturizer** which works wonders. My face used to "always" be very red and flaky and now it stays clear and very smooth.

I am 41 years old and everyone thinks I am younger!

Thank you, thank you!

Jackie T., San Francisco

HI NETTIE

I JUST HAD TO WRITE AND TELL YOU THANK YOU.

I WAS GIVEN A SAMPLE OF **PURPLE EMU OIL** TO USE FOR MY ROSACEA AND LOVED IT. I NOW USE THE **REDNESS AND BLEMISH CONTROL**, THE **SUPER RICH MOISTURE** AND THE OIL AS TREATMENT FOR MY SKIN AND THEY ARE GREAT. MY SKIN HASN'T LOOKED THIS GOOD IN YEARS.

THANKS AGAIN FOR GREAT PRODUCTS. TERRY

Subject: RE: Thank you!

Just to let you know ... after several years of trying different things ... this is the first product that I had found that actually reduced the redness of rosacea. After talking to a dermatologist I was told that I would be on antibiotics for the rest of my life to keep this condition in check.

I found out about your product from my Aunt last Thanks Giving. She saw my face and knew EXACTLY what to do. She gave me your cream. It worked amazingly well. I ordered more.

I will use your product for the rest of my life and I will not have to take drugs to stop the inflammation. I wish I had found you sooner. Perhaps contacting hospitals and dermatology clinics would help you distribute more of this excellent product.

I owe you a rousing round of applause and thanks. John T., Santa Clara, CA

Subject: compliments on your products

Hi! I LOVE** my skincare products!! After trying **Golden Magic** the first time, I thought I might like it... after a week I knew I liked it. Now, months later, I know I LOVE it! It has worked great with the A/R Crème and cleanser, and the system has improved my complexion immensely. Thank you, thank you!

Nasreen K., Mifflintown, PA

Subject: blemish control creme works wonders

Nettie,

i would like to thank you for your wonderful products! in the past week to week and a half i have been dampening my face to help spread smaller amounts of the **blemish control cream** all over my face more evenly and the progress i have seen has been astounding. every day i look in the mirror i can see improvement as the nasty infected red areas retreat and healthy skin emerges. at this time last year my face was just starting to get really infected and broken out and i was totally dependent upon the recommendations of a dermatologist, who ended up giving me several different prescription topicals, all of which only exacerbated my condition! on the other hand, your completely NATURAL products have performed wonders for my formerly very nasty complexion in less than two months (and i have been seeing results even faster since i have modified how i apply the creme)! I'm not yet totally clear but at the rate i'm going, i wouldn't expect it to be more than another 2-3 weeks at absolute maximum; in reality it will probably require a lot less time.

i just can't believe that there are thousands of people out there suffering like i was or even worse because they don't educate themselves about what they are putting on/into their bodies. my ONLY regret about this whole experience is that i didn't know about your blemish control creme much earlier! in the future i am definitely going to wholeheartedly recommend your products to anyone suffering from a poor complexion. your creme works 10 times faster and better than any prescription and it's less expensive as well.

again, thank you SO MUCH! i feel like i've reclaimed my life! –

Howard J., Grinnell, IA

I have been doing without the **Redness and Blemish Control** because I lost my job and then got very sick. My face was suffering! I needed this order very badly. Nothing else works at all. A friend gave me a tube of Metrogel she wasn't using, it did nothing. Your product was a lifesaver – make that “face saver! I look forward to getting my rosacea under control again so I can ease up on the cover-up make-up.

Thanks

Lois O., Cedar Falls, IA

PS. You most certainly may use my words as a testimonial! I tell everyone I know about your cream! In fact, my granddaughter's age 10, she has the start of rosacea. I told her not to worry: Grandma knows how to take care of that! I am already seeing improvement in my face. Outstanding product.

Please ship this item ASAP! I have none left. I was using the **AR creme** until all my acne vanished, then when I stopped using it, my acne flare up again. My face just can't live without it.

Rida S-F, Oakland, NE

My idea for using **Emu Oil** is right after the shower while still damp, put a half a dime size in your palms and lightly rub over the entire body! While palms are still "shiny" with a very little oil left, rub thru damp hair for shine and conditioning!

Peggy, LI, NY
Moonmaid81@.com

Hi:

I would like to let Purple Emu know how much I enjoyed talking to the girl who helped me when I called. Unfortunately, I let her name slip my mind, but I believe it is so important to have up beat people on the ball and you have certainly got at least one.

Thank you for the product I ordered and also for the information on the distributorship. I am finishing up some other things I have going here and will be getting back in touch with you soon.

As I told you on the phone, I have had great results with the **EmuX** with some bad back pain. It kept me pretty much pain free as we traveled.

Sincerely,

Marion P.

Keystone Hgts, FL

Subject: Rosacea update

Hi Nettie, just wanted to update you on my progress on using your product **Redness Blemish Control** and am so happy I tried it. If you recall I was skeptical on purchasing it since nothing ever seemed to work. My wife pushed me into trying it and am very thankful to her that I did. The results are outstanding and I am not kidding, you were right on giving it a few weeks to do it's job. The rosacea is not gone completely but pretty close, it's the best that I or my wife has seen it for years. Once again thank you for your time and your product, feel free to use my notes to let other people who suffer from this stubborn skin disease see the light that Purple Emu is the way to go. I just ordered another jar and am hoping to cut back on application to every other day. I don't know what I'd do if you went into another business, I guess I would have to order by case. Thanks again.

Greg C.

A neighbor who works at a restaurant and has bleached, callused, irritated hands, called to say that another neighbor that we had given some **Emu oil** to had given her some, and she decided to try it on her hands, and that within one week her hands were soft, painless, and getting better every day!
Peggy and Glenn G., Camas Valley, Oregon

Seven years ago my husband was burned in an explosion. Third degree (skin grafts) on his hands and arms and second to his face. A friend recommended he get pure **emu oil**. His skin has never gotten dry and cracked from the burns like some and the scars reduced dramatically. To look at his face you can not tell he was burned. He uses it to this day.

Bonnie G. Lawrence, Kansas

Hi Nettie thank you for your e-mail.

I just wanted to let you know what a wonderful product you have.

I used to suffer from Seborrheic Dermatitis, for which I was unfortunately prescribed Daktacort Cream (hydrocortisone) by my GP. Although this worked initially the things gradually became much worse. Fortunately, I was told about Nizoral shampoo which almost completely cleared the condition and I no longer need to use cortisone creams.

However, I was still suffering from blemishes and rashes around my jaw (which my GP thought was Eczema). Within a day of using your **Redness and Blemish Control** I could see a noticeable improvement and within a week the blemishes had completely cleared. I have had no reaction to the cream and have been 'clear' for over 4 months.

I know that you must get messages like this all the time, but I can't tell you the relief at finding a medication that actually works - I feel like I have got my life and my confidence back again.

Sorry to bore you, I just wanted to let somebody know!

Many, many thanks Richard S.

I was diagnosed with rosacea at age 44 & have tried just about every product that I hear about for this condition. I prefer to use topical products rather than take the oral antibiotics. I only take the oral medication when I absolutely have to. I heard about using emu oil for rosacea & was very surprised since oil is a no-no for this condition. I decided to give it a try anyway. I bought your "**Redness & Blemish Control**" & after smelling it, I thought it would be too harsh for my sensitive skin. I was wrong. It did take a few days for my skin to adjust to it, but I haven't had any real problem. I wrote to the "Rosacea Review" a newsletter for people with rosacea & told them about my new find. I know there are others who will also benefit from your products. Thanks so much & keep up the good work!!!!

Kay K., Gadsden, AL

I work with Toni Smith at the main office and have ordered your **redness & blemish control cream** a few months back. This product is absolutely wonderful! My rosacea is gone for the first time in years! Before using this product, people would ask me if I felt okay since my face, especially my nose, was fiercely red. Not any more. I'm almost out and would like to order more Thanks for making such a fantastic product!

Jo Ann M. B., Harleysville, PA

I started using this **blemish control** on my Rosacea and in the second week the redness was less visible. I'm so glad because the dermatologist couldn't do anything with his medication and I started using Murad products and it wasn't doing it. So, you were my last hope and I thank YOU!

Jo B.,

Dear Nettie - I just wanted to let you know that the **Redness & Blemish Control Crème** has been a miracle for me and my rosacea. I was scared the first week I tried it as my skin dried out badly and peeled and turned red, but soon the peeling stopped, the redness was gone(!) and my skin now accepts all kinds of moisturizing products that I wouldn't have dreamed of using for the last 10 years (and I need the moisture at my age). Also the terrible itching is completely gone. What I just can't understand is why, if this product does such an unbelievable job, the doctors keep steering us towards useless and usually harmful topicals and antibiotics.

I am very pleased and hope you will always be there!

P.S. Question: For how long can one expect to keep seeing improvement? I still have some bumpiness under my skin (very minor) and wonder if this will eventually go also. I've been using the product now for about 5 1/2 weeks. Even if it doesn't get any better than this, I'm ecstatic - especially as I can now use moisturizing foundations! Paradise.

Susan R., Newtown, CT

Dear Nettie – I am aware this will sound hokie – but I can not believe the difference in my nose. The **Redness and Blemish Crème** has become the one beauty product I can NOT do without!! Thank you very much.

Rebecca B. Leighton, PA

Just a note to say thank you for your products. I have very fair, dry skin and rosacea, and I use the Purple Emu Oil every night. It keeps the rosacea in control and, most of the year, it's all I use. However, I do keep the moisturizing cream on hand to help during the extremely dry winter months.

Also, this summer we took a trip to the beach and I tried your **protective sun cream**. Amazingly, I did not get a sunburn, and -- as I said -- with my fair skin, I ALWAYS get at least a little sunburned. So, I give that product extra high marks! Thanks again.

A long time ago I talked directly to you by phone.

You told me that you had your Mother on **Emu Oil** and that it seemed to stabilize her blood pressure. I gave it a try because no matter how much the doctor increased my medication/water pill my blood pressure would not come down and too much of the one medication put too much strain on my one and only kidney.

You suggested that I may be eliminating the medication through my urine and to try the Emu oil capsules.

Well, I am happy to announce that faithfully taking **Emu oil** daily has stabilized my blood pressure at 120/80 and just to try an experiment myself I stopped taking the Emu Oil only to have my blood pressure elevate again. Amazing!

My husband recently went in for a physical and complete blood work and his cholesterol was out of the ballpark so to speak and the doctor wanted to put him on medication immediately. I said, "No" and to please give us 12 weeks to see if we could lower the numbers by diet and exercise and my husband now takes Emu oil capsules as well. I am so excited about this and thank you for the latest write up on cholesterol.

I will keep you posted on the results. I changed his diet drastically, eliminating all milk products substituting soy and rice milk and he eats absolutely no eggs. Oatmeal is served in the mornings with blueberries, or bulgar wheat, or bran wheat cereal. For dinner, lean cuts of meat, chicken, and soy protein is now served and he stays within the recommended 300mgs of cholesterol daily intake. White flour and starches has been eliminated and he enjoys mashed sweet potatoes. Rice a Roni is a favorite with no cholesterol, lucky for him.

We are excited to see what the results will be upon the next doctor's visit. The doctor was not happy with the game plan my husband presented to him but agreed to let us do our own thing first, medication will be considered as a last result. At least through a change in diet there won't be any adverse side effects !

Thank you Nettie for your wonderful products and your customer service. Sincerely yours, JoAnn M.

Thank you.

Just to let you know that your cream for **Redness & Blemish Control** - Rosacea has now cleared my problem. It took more than the 30 days but I persevered- it was a bad case of Rosacea and I had a lot of infection but now it is clear and just a few blemishes still to go - I am still using the cream but the infection seems to have now gone - I have cleared it up all myself with Purple Emu. I have now ordered the moisturizer as it seems to help the dryness. Much better than all the antibiotics. This was all because I read about it in one of our magazines over here.

Thank you – Pat, U.K.

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of emu oil 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered

my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

Oh - almost forgot. I also ordered some products for my elderly mother, some regular emu oil and Purple Pub, and she is likewise thrilled. Not only that, but she and several other ladies in her assisted living home ordered some of the emu oil **Gel Capsules** and she has told me that it is making a big difference on her in reducing her arthritis pain, when she didn't really think anything could help. She also uses the **Purple Rub**, and together with the capsules, is now feeling more relief from pain than she has in a long time.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris R.

Hi Customer Services

I am emailing on behalf of my wife who has been using **Blemish Control** for her Rosacea for the past year and is very happy with the results with her skin being clear.

I would like to take this opportunity to thank you and your team for this great product which has made a great difference to my wife's life.

I look forward to hearing your reply Kind Regards

Thomas H., Belfast, Northern Ireland

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of emu oil 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

I'd been dealing for years with rosacea that seemed to just be getting worse no matter what I did. I didn't want to have to be on antibiotics the rest of my life and that seems to be the only remedy offered by doctors. The other home remedies I tried helped either a little or not at all, but provided no real relief. So I was very hopeful to read about your Redness & Blemish Control Cream and ordered a jar used on your 30-day guarantee. Imagine my astonishment to see my skin clear up completely, with no ace of the rosacea after only one week! As of this writing, over two months later, there has been no recurrence of the redness or blemishes or lumpy nose at all. My skin is clearer than it has been in years, no more turning red if I have a drink, or take some exercise. It's amazing and I can't thank you enough!

So then, based on how well that worked for me, I ordered ajar of you're **A/R Creme** for my teenage grandson who is struggling with the inevitable teenage acne. Well I'm thrilled to report that the cream is also working for him. He has not experienced any redness and his acne is much improved, in fact nearly gone. Wow. These creams are amazing.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris Rogers

Currently, we use the **Emu oil** on our feather-picker parrots, and they stop plucking, and start growing in beautiful, shiny feathers. Same for dogs and cats-flea bites and itching are stopped by applying to the affected area.

Peggy & Glenn G., Camas Valley, OR

I just want to thank you for this great product!! (**Redness & Blemish Control Crème**) I have suffered with this condition for a long time and within the last 2 years in addition to the redness I have developed the acne. It's nice to be able to go outside again without thinking that everyone is staring at the redness and acne. Thanks again!!

Helen Z., Salt Point, NY

I have had serious acne since I was a young child and have tried both prescription and over the counter products to clear it up. The only thing that has ever worked was roaccutane from the doctor, but I suffered some uncomfortable side-effects during the treatment and was delaying starting a further course after a recent bad flare-up. I was recommended **Blemish Control** by a friend, who had been amazed by its effects. So I thought I would give it ago. After my first application I new there was no going back — a month down the line my skin looks and feels wonderful. My skin is so healthy and clear, even first thing in the morning and last thing at night.

Blemish Control is a remarkable product, a real God send. Thank you

Joanne H, UK

Hi! My mother is suffering from eczema severely (on the head) now the only thing that really helped was EMU CARE shampoo – with **Emu Oil** – as well as for dry hair, have you received letters from people telling the skin on their head better?

Yvonne de J.

Hello folks! I just wanted to let you all know how much I enjoy your products and how much they have helped me. I started suffering from rosacea when I turned thirty. The doctor gave me a prescription cream, but to be honest, it didn't do a thing to help! Then by chance, while at the Maryland State Fair, my husband saw a booth promoting emu products. He noticed that one of the skin products said it could help

reduce the severity of rosacea. Well, had nothing to lose, so I purchased a jar of the **Blemish and Redness control** (lite) and a small bottle of **emu oil**. I saw a marked improvement in my skin condition after a month (after a bit of exfoliation!). I have been using these products for about 1 1/2 years, and my skin looks fantastic. I have now taken to using the **Super-Rich moisturizer** in winter (when the air is so dry!), and it is the only moisturizer that won't make me break out. I have been recommending these products to friends and family, especially my cousin, who has been plagued with terrible rosacea. He has finally started using the products, and I am sure he'll be happy with the results. My mom is hooked on the face cream.

Again, thanks for the wonderful products!

-Susan H.

Dear Nettie,

I'm writing to you, to thank you so much. I have suffered from Rosacea the last few years. A friend saw a letter in a magazine, it was about your cream "**Redness & Blemish Control**". I have found a big difference since I started to use your cream. My brother & a friend have ordered it for me as I do not have internet.

At long last I have found a miracle cure.

Yours Sincerely,

Marion H., UK

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of emu oil 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

Oh - almost forgot. I also ordered some products for my elderly mother, some regular emu oil and Purple Pub, and she is likewise thrilled. Not only that, but she and several other ladies in her assisted living home ordered some of the emu oil **Gel Capsules** and she has told me that it is making a big difference on her in reducing her arthritis pain, when she didn't really think anything could help. She also uses the **Purple Rub**, and together with the capsules, is now feeling more relief from pain than she has in a long time.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris R.

I HAVE BEEN USING EMUE OIL FOR PROBABLY 20 YEARS. ITS SO GOOD FOR BURNS AND CAN PREVENT SCARING IF NOT ALLOWING BURNS TO SCAB. EVERYONE SAYS FOR MY 67 YEARS MY SKIN IS NOT TOO MANY WRINKLES. IRECOMMEND EMUE OIL TO EVERYONE FOR ANY SKIN PROBLEM. SOME TAKE MY ADVISE AND SOME DONT.. THEY

JUST DONT KNOW WHAT THEY ARE MISSING.. IN THE MALL THERE ARE ALL KINDS OF SKIN CREAMS THEY LIKE TO PUT ON YOUR HANDS.. THERE COMMENTS ARE USUALLY THAT I ALREADY HAVE SOFT HANDS ...WHAT DOESNT GO ON MY FACE GOES ON MY HANDS AND ARMS.. MY HUSBAND USES THE OIL FOR HIS ELBOW WHICH ARE REALLY DRY AND I USE IT FOR THE HEELS OF MY FEET....ONE THING THOUGH. THE BOTTLE HAS MY CAT LICKING THE TOP AND WAITING FOR MY NEXT USE.. HE IS JOHNNY ON THE SPOT FIRST THING IN THE MORNING AND LAST THING AT NIGHT FOR HIS DAILY FIX.
SINCERELY PAT ARNOLD

PAT A. [pata1316@.com]

Thank you.

Just to let you know that your cream for **Redness & Blemish Control** - Rosacea has now eluted my problem. It took more than the 30 days but I persevered- it was a bad case of Rosacea and I had a lot of infection but now ALL is clear and just a few blemishes still to go - I am still using the cream but the infection seems to have now gone - I have cleared it up all myself with Purple Emu. I have now ordered the moisturizer as it seems to help the dryness. Much better than all the antibiotics. This was all because I read about it in one of our magazines over here.

Thank you – Pat C., Hampshire, UK

Just thought I'd write you an email to let you know how FANTASTIC I think your **blemish cream** is. I suffered from rosacea for about 10 years. The doctor couldn't do anything for me. I had creams and pills over the years that seemed to take the edge off it for a couple of days and then it would be back as bad as ever. I used to get dry flaky skin in a sort of butterfly from the top of my eyebrows, across my cheeks to just under my chin. I had to moisturize every day otherwise it would flare up all red, puffy and sore for few days. Then my fiancée found an article in her Take a Break magazine about somebody in the same situation that had excellent results, so I ordered some. Talk about QUICK - it had basically cleared my skin within 4-5 days. I could actually see the pores in the skin either side of my nose, a patch of skin that was usually permanently red and smooth. The only thing is I was lucky that my fiancée had seen the article otherwise I could still be suffering. Why haven't I seen any adverts in the UK, you'd sell loads of the magic cream! I like it so much I've put a link your logo and a link on my website :o)
www.pabloswebportal.com

Anyway, thank you very much. Cheers,

Paul C., Suffolk, UK

Hi Nettie,

Thank you for your email. I always think it's a real treat when you personally email your customers like that, it's a very nice touch, I must say!

I have just received the packaged and I realized when I opened it that I had ordered the wrong size! I'll have to order some of the big tubs now... Doh!

Anyway, you may have noticed that I get through quite a bit of this crème. The reason for this is that I flare up mostly across my chest, over my shoulders and almost all the way down my back. I do have facial flare-ups too, but these are easily controlled. Perhaps you might be able to advise me a little here, whilst I believe I suffer from rosacea, I have never had it fully diagnosed by a dermatologist. When I was younger I was misdiagnosed continuously, the first doctor I saw thought it was just teenage acne and told me it would go away, it didn't. However, whilst I was still living in the UK it never really got out of control. I had a small rash on my chest and my face would flare up very occasionally, so much so that I thought it was just an allergic reaction to something.

However, since I left the UK it has got a lot worse. I have been living in Dubai for about 5 years now and since I have been here it has got very bad. I have been to four dermatologists as well as the local hospital trying to seek a diagnosis. The best and last one being that I had rosacea. I must say that the Blemish control works wonders, it really is a miracle crème, however, when I have to use it on such a large proportion of my body it does become very expensive.

There are two questions that I have been dying to ask you. First of all, is it normal to have rosacea flare-ups on your upper torso? I have not heard anything about this myself, but as the crème works so well I assume that this is the case. Secondly, do you have a body lotion that has the same healing properties as the blemish control? I believe this would be a much better solution for me, it would certainly help me save a bit on the blemish control crème!

I am returning to the UK with my fiancée in the summer, once we have settled in back home I will seek out a reputable dermatologist in London, perhaps they might be able to help me further, but as you know, there is very little known about this skin disease even now, so I doubt they would be able to help me any more than your products have to date.

Finally, I must thank you. Your site and your products were recommended to me and the results they have helped me achieve are truly remarkable. Thank you. My line of work puts me in front of important customers all the time, so image is very important, it is wonderful to find a product - especially a natural one - that is so effective. I have recommended your products to both friends and family, a number of them are now returning customers to your site and they are all as enthusiastic about the products as I am! So a big thank you from them as well!

Best Regards,

Luke M., Dubai, Middle East

I have also been using this oil on my scar that I have from a past hernia surgery, it is fading dramatically.

I have been using it on my stretch marks on my back, they are almost 100% gone in only about 2 weeks of use, incredible! ! Also on red spots from a past rash, also fading big time :)... even my parents have been begging me for this oil before bed for their dry skin.. we all love it and wont be without it.

Thanks for making this available to us all. Bye and I'll be in touch

Mike L, AZ

Dear Nettie,

I ordered your **Blemish Control** as well as your **Redness & Blemish Control** and your **Super-Rich Moisturizer** last summer. Now I have to write to you and thank you for these excellent products!

Back in the mid nineties, my husband, who is an insulin dependent diabetic, had an HDL of only 35. When we purchased our first emus and became familiar with the emu products, he started taking emu oil gel caps.

His doctor only checks for cholesterol once a year but, the next blood test after he started taking emu oil gel caps, his HDL was up to 65. This past Spring his HDL was 85 while his triclycerides are only 51. Not bad!

We are totally amazed since, though he does eat a good diet most times, peanut butter, ice cream and cookies are a staple in his life.

Also, his resting blood pressure averages 85 over 65 sometimes even lower.

My numbers have been very good through the years but, I have not had them tested recently. Joy

Joylene R., Brodhead, WI

• I am using the **emu oil** on stretch marks on my abdomen from pregnancy, and am seeing a gradual reduction in the scars (have been using one month to date).
Peggy and Glenn G., Camas Valley, Oregon

I suffer from Rosacea, but since using **Redness & Blemish Control** & **Super-Rich Moisturizer** with **Soft as Silk Cleanser**, I have been clear for the last 2.5 months. I have just ordered more products. Thank you for giving me more confidence and receiving compliments about my skin, which hasn't happened since I was in my twenties!

(I don't know whether or not you want to mention that in the first week of trying the products my skin was actually worse than it had ever been before-burning, itching and lumps. After taking advice from yourself I stopped using the products for 10 days and then tried the products again, (which I was very loathe to do, I must admit), I experienced no flaring the second time around and a dramatic improvement in the clarity, redness skin tone and smoothness.

Julie B., Derby, UK

Redness & Blemish cream totally transformed my skin. No more raised spots and the weather does not affect it quite so much. I will use it forever!!!

Julie M., Bristol, UK

It has been almost a year since I started using your **Redness and Blemish Control** for my rosacea. From the very first week I noticed marked improvement and my skin has gotten progressively clearer and healthier every month. I have also found that if I control my diet (for me that means no processed sugar, no 'hot' peppers or chocolate) I have absolutely no 'flare-ups' and I can skip my usual once daily application now and then without any ill effects.

An important note for anyone who might be balking at the price...

The 2 oz. jar I am using now has lasted me for 9 months and there is still a fair amount left! That makes this product the most inexpensive I have ever tried... as well as the only one that actually worked!

I simply couldn't be happier with the results of your wonderful product. Thank you so much!

Harry J., Grand Rapids, MI

I bought one of your products back in February 2005 and have been so delighted with it, I am 33 and have suffered with rosacea for about 8 years, I have tried most things, even went to see a Chinese herbalist whom was very good first time around but when it flared up again failed to help me. Which is when I tried your cream, I haven't looked back since. I would like to thank-you for changing my life and giving me back my self-confidence

C. Yates

Hitchin, UK.

Thanks to **EMU OIL**, my husband and I can walk again without pain! I just can't believe what it has done for us! Many, many thanks for your wonderful products!

I think it is just great the way you acknowledge your e-mails! It makes me, as your customer, feel special.

Shirley A M., Mendon, MA

Hi John,

I just wanted to take some time to thank you for making these fantastic products available in the UK. I was at rock bottom when I found your website accidentally, while doing some research into Rosacea.

Through reading your wife's story, the testimonials and your own very positive, enthusiastic and convincing text and info on the products I had real faith that this was going to help me (maybe that's half the battle).

I have been using the **Redness and Blemish Control** and the pure **Emu Oil** for just about a month and you are right - it has made an amazing difference. The toughest time was at the beginning, when yes the symptoms did appear to get worse, however I kept remembering your words of conviction to stick with it - this made me persevere. I have never before been able to put an oil directly on my face without it breaking out - Emu oil is different, and feels fantastic.

I have now just ordered the **super rich moisturiser** and another Emu oil as I've already finished the first one - started using it for other minor ailments too.

I would recommend these products to anyone suffering from Rosacea or similar skin problems.

Thanks again.

Best wishes Lynn McK. Ayrshire, UK

I have been using **Emu Oil** for several years to help me control my seborrheic eczema (dandruff). I generally will have a significant outbreak about 6 times a year that can last anywhere from 1-6 weeks and it be very embarrassing so by rubbing a little Emu Oil after I wash and dry my hair it prevents flaking

throughout the day. I absolutely love this stuff. Jacqueline~

wacki yacki

Nettie,

When I stopped taking birth control pills a year ago my face broke out terribly. My dermatologist prescribed tazorac, a retinol cream, to help me. Most of my acne went away - I still usually had occasional acne, but my skin was red, peeling and raw. Despite the side effect of the tazorac, I was happier to have the raw redness with a few pimples than the all over acne that I had before.

About 3 months ago, my mom recommended your **Blemish Control** product and **Emu oil** to me. I was hesitant to try it. I wasn't sure something natural could take care of my problem and I was horrified that if I got off the tazorac, all my acne would come back. Well I tried it. It's been a little over two months now, and my skin has never been so beautiful. All the acne is gone. The color of my skin is normal. My skin feels healthy again.

Thank you so much. I am so happy with your products and recommend them to everyone I know. I ordered a larger size blemish control and emu oil a couple weeks ago. I will be a loyal customer forever!

Kellee D., Atlanta, GA 30309

This is the second jar of **Redness & Blemish Control** I am purchasing, and I'm very happy with it. Your ingredients are wonderful, and I find it very effective at controlling my rosacea. Thank you for a wonderful product!

Lisa W., Stroudsburg, PA

"I'm really, really enjoying these products. A cosmetician at a dept. store cosmetics counter recommended them to me because I was having trouble camouflaging my acne and hyperpigmentation with foundation and/or concealer. I've been using your products for over a month now and the A/R cream has managed to almost totally undo in a short amount of time what has been on my face for YEARS!!!! It's incredible. I've had blotchy, dark patchy, broken out sometimes, and irritated skin since at least the age of 13. Well, I do believe these products are leading down the road to recovery. I may even be able to go w/o foundation with confidence for the first time in my life. Thanks Purple Emu Ltd.!!!"

Kimberly

Houston, TX

I have been using the **Redness & Blemish Control**, as well as the **Super-Rich Moisturizer** for just over a week now. I didn't have severe rosacea or acne, but it was enough to bother me. My skin looks fabulous! My trouble spots have cleared up, and my skin looks more toned and younger. Also, my skin is less oily now. I am so glad that I tried your products, and I will continue to be a customer from now on. Thanks a lot.

J Miles Loveland, CO

My cousin gave me a small pot of the **Redness and Blemish Control** cream and my skin has cleared in two weeks. This after five years of rosacea getting worse and worse, after all the creams, antibiotics and light treatments! I am thrilled beyond belief! Now I would like to read up on your products to figure the best one to get for my niece who is 23 and still suffering with acne. Thank You !!

Linda G., Mordiford, UK

Emu store,

I just received the products I ordered for Rosacea. I must tell you I have had instant results. I will recommend your products to everyone I know.

Rena F.

Hello Nettie,

Just a note that the **Redness & Blemish Control** really works really good, much better than taking pills for my face (Rosacea). Thanks again and the Blemish Control has lasted so long, a little goes a long way. It's been fun to try some either stuff too.

Thanks again. This stuff is good! The soaps and the Hand & Body lotion was really nice! The soaps smelled really good! And that **Super-Rich moisturizer** goes hand and hand with the **Redness and Blemish Control**.

Joanna S., Newport, OR

I suffer from Rosacea, but since using the **Redness and Blemish Control** & **Super-Rich Moisturizer** with **Soft as Silk Cleanser**, I have been clear for the last 2.5 months. Thank you for giving me more confidence and receiving compliments about my skin, which hasn't happened since I was in my twenties!

Julie B

Derbyshire, UK

Your product (**Redness & Blemish Control**) was excellent, I have had a problems with Rosacea for years. My nose and cheeks cleared up within days of using the cream. I carried on using it for 2 weeks and presently do not need to use it at all. Everyone has commented on how clear my skin looks and how quickly it cleared. I intend to speak to my GP and Dermatology department at my local hospital about your product, as the products they use are rubbish in comparison. I have also talked to several friends who will no doubt be ordering from you. Thank you so much. A very very satisfied costumer.

Carol T., Oxfordshire, UK

I like **emu oil** do much for the fast relief I get from aching joints I ready to try the shampoo thanks angeliarich@.net

Thank you so much for your wonderful all natural products!!! I am extremely chemically sensitive and cannot use anything whatsoever with synthetic toxic chemicals. I was previously using a product that was supposedly "Natural" and it caused my skin to become very irritated resulting in dryness and severe flaking and peeling within just a few weeks. Brilliant me finally looked at the ingredients (with a magnifying glass because the listing is so tiny on the containers) and saw that it was full of chemicals. Even though I discontinued this within just a few weeks of starting, nothing I tried would restore my skin from the flaking and peeling damage. Finally I remembered that I had a sample jar of Super Moisturizer and I tried that. Amazingly enough this healed my skin and stopped the dryness and peeling overnight!!! Needless to say I am ordering a regular size of this with my order for the **Protective Sun Crème**, which is the best natural sunscreen I have ever found. It has been a challenge finding high quality totally natural products, so I am very glad that I finally found your company (while searching on the internet).

YOUR PRODUCTS ARE SIMPLY AMAZING!!!!

Gratefully, Evelyn G.

Dear Nettie,

I wanted to send you a quick update...

Tonight will be 3 weeks since I started using your products, and I am happy to say that I am seeing some good progress :)

I have faithfully been using the **creamy cleanser** both morning and night, and then the **Blemish Control** only at night. After about 2 weeks, the extreme bumps started to clear up. I was getting new ones each day, but only a few and the old ones were clearing quickly.

At this point, my face was still blotchy and uncomfortable, (though less bumpy), so I decided to change the routine slightly: at night, after washing, I put a light layer of pure Emu oil on, then a tiny touch of the **Super-rich moisturizer**, then wait about 10 minutes...then I mix in my hand a bitty bit of the **Blemish Control** with about 5 more drops of pure **Emu oil** and apply lightly to my face.

The mixing of the pure Emu oil with the BC really seemed to help the progress - the discomfort is gone. My skin is smoother, the color is becoming more even, and I only get maybe one or two new whitehead-type bumps a day...and those are usually almost completely gone by the following day.

And I'm not sure if it is just me being hopeful, but it seems to me that the fine lines around my eyes look a little smoother! I have been patting the pure oil very lightly around my eyes :)

Thank you for encouraging me to stick with the program and the products...it was difficult at first but I think worth waiting it out! I am looking forward to even more good results...today, in the morning after a very light layer of the pure emu oil, I smoothed on a sheer tinted moisturizer and I only needed to spot-cover a few areas. That was nice!

I appreciate your caring and dedication to your customers. Thanks again!

Cheryl S. Macedonia, OH

Hi Nettie,

As promised, I am just letting you know how my Mum is getting on using the **Blemish cream**. Well, she too has had astonishing results - she loves it so much and it has made such a difference to her cheek area where she had flare ups of Rosacea. As a previous Rosacea sufferer, I know you will understand how down she used to feel, even when she didn't have an active flare up, her cheek area was always pink/red, almost like there was a permanent mark

where the Rosacea had been. You may remember I mentioned she was staying with me when the cream arrived. Literally, within 2 days of use, she saw improvements. Now, she is not wearing cover stick as she simply doesn't require it.

I know you will appreciate more positive comments and it's a pleasure to let you know of what great results my Mum is also experiencing.

As before, please feel free to use any of the above as encouragement to others to try your wonderful products.

I hope you have a really lovely Christmas and New Year. Kindest regards,
Andrea S-D Nottinghamshire, UK

Dear Nettie,

Well, I have used the PE products - **cleanser**, **Blemish Control**, and **super-rich Moisturizer** - for 4 nights now... This beginning phase is more difficult than I could have imagined :)

I'm so glad that I thoroughly read all the info on the Blemish Control at your website, and all the literature you sent me, so I was prepared for this period of ugliness :) But wow - I must admit this is much worse than I was even expecting. My face is just bumps, bumps, bumps. I'd say 60 at least...most are small, a few are big. The big ones are deep. The small ones just look terrible. Some have been filled with pus, others are just bumps. It is red and blotchy. The overall feeling is my face is uncomfortable, but not painful. It just LOOKS awful...

But I am committed to the program and will continue! I am praying this is just a big-time purge, as I read about. I am using the Blemish Control at night only, after washing my face with the PE cleanser. Since my skin is so aggravated, I am putting on a very light layer of just plain emu oil first, then a very little bit of the Blemish Control. I am putting it on the areas that I usually would break out - my T-Zone, and Jawline. Of course, those areas are now covered in the extreme bumps and whiteheads...

Tonight will be my 5th night. Each day I wake up to more bumps :) My face is not red in the morning when I wake up. I have been covering the "effects" with a dusting of mineral makeup and then the more obvious spots with a non-pore clogging concealer. Takes me about 1/2 an hour!

I am hoping and praying that after this period, things will begin to clear...there are no signs of this yet, but I am choosing to be optimistic, based on what I have heard and read about the Blemish Control.

I have been using your product PELbasics **for redness & blemish control**.

My face had begun to get red and hot several weeks ago, and I was concerned. I began using the cream less than a week ago, and my face is 90% better. This cream took away the heat the skin on my face.

The puffiness is gone.

The redness is all but gone.

My skin feels GREAT, and looks very good also.

Your product is WONDERFUL.

I praise The Lord that a local health food store put me onto this product.

Sincerely, Elaine N.

I really, really like this product. I have tried other products which contained Emu Oil but none performed for me like your **Purple Emu Oil**. I use it for joint pain, sinus pain and itchy scalp. I don't like to be without it.

Edith J.

I want to tell you that your **Redness and Blemish Control** is a wonderful product that does exactly what you say it does. Like most rosacea sufferers, I have tried a number of different treatments and your product is simply the best. I am now proud to show my face in public and no longer hide the shame. Thank you, thank you, thank you!

Scott B.

San Diego, CA

“I just got my **Redness and Blemish Control** yesterday and used it last night... I think I love this stuff! :) My face felt so cool and soothed ... and it diminished my redness quite a bit too ... needless to say I am thrilled to death! I'm sensitive and allergic to so many things that I was even afraid to try it ... this feels better than any med I have used so far, and that's quite a few!

There are people in our support group starting to ask about **Redness and Blemish Control** cream and I only see 2 of us on that are using it so far ... there is a section of our group devoted just to products that are used to treat Rosacea and I definitely think Redness and Blemish Control belongs on that list!

I'll get off my soap box now...I'm feeling really good about my face this morning and I had to share that with you!”

Carolyn K Miami, FL

“By the way, your **Redness and Blemish Control** formula has COMPLETELY CLEARED UP MY awful case of acne rosacea...it is truly unbelievable... a miracle if you ask me. I am thrilled with your product!

Thank you, I was so skeptical because I had tried so many different things...your customer service person, Nettie is her name I think, was so incredibly patient and helpful.”

Vicki J Newton, NJ

I just wanted to take a moment to tell you what a great product you have. Ordering it was probably the smartest thing that I have ever done in my life.

About 4 months ago I had a breakout of dermatitis and acne. I never had this problem in my life. The rashes on my cheeks have been so severe, that a lot of days, I would not want to leave my house. People would ask me what happened to my face ? I could not even look people in the eye. I have been using so many different creams and nothing really worked. Sometimes the topical steroids would literally hurt my face. My face would be in pain. I have been to like 5 dermatologists. I have been to Acupuncture. I have been to A Nutritionist. I have been to an allergist. All totaled I think I have spent well over \$2000.

With 2 days of using your (**Redness and Blemish Control**) cream, symptoms were better. And within 5 days it is almost all gone.

You have such A wonderful product. I hope you make millions from it. I am eternally grateful.

Mike S - Delray Beach, FL

I've had Rosacea since being 17 years old. I tried everything! The dermatologist had me on topical antibiotics, oral antibiotics, accutane, nothing seemed to work. I felt like I was damaging my health to rid the rosy cheeks and bright red nose. Then a friend recommended your product, **Redness and Blemish Control** and **emu oil**. Two weeks!! The redness, the soreness is gone. I had no side effects. I am now 28 years old and finally can lift my head up high and not worry about the next person that I encounter will lecture me about getting so much sun. I now recommend your product to others with the same problem, the thing is, they see the proof in me.

Thank You!

Marcia H. Schuylkill Haven, PA

“Fantastic results with this miracle cream (**Redness & Blemish Control**). My husband has suffered for a number of years with rosacea and now with purple emu you have solved his problem gave him his confidence back and his youthful looks. Thank you for this miracle forever grateful.”

Ann H., Liverpool, UK

“I ordered **Redness and Blemish control** last year. I am using the product for a year now and I'm very pleased with the results. The first 2 months my rosacea got worse but in the third month my skin improved dramatically. Thank you for your product and I will spread the word about your products here in the Netherlands.”

C. Borst Netherlands

“Hi Nettie, just wanted to update you on my progress on using your product **Redness and Blemish Control** and am so happy I tried it. If you recall was skeptical on purchasing it since nothing ever seemed to work. My wife pushed me into trying it and am very thankful to her that I did. The results are outstanding and I am not kidding, you were right on giving it a few weeks to do its job. The rosacea is not gone completely but pretty close, it's the best that I or my wife has seen it for years. Once again thank you for your time and your product, feel free to use my notes to let other people who suffer from this stubborn skin disease see the light that Purple Emu is the way to go. I just ordered another jar and am hoping to cut back on application to every other day. I don't know what I'd do if you went into another business, I guess I would have to order by case. Thanks again.”

Greg C. Grand Ledge, MI

“I have been using the **Redness and Blemish Control** for about a week. So far the rosacea is almost gone. For about two years I have treated this with prescription cortisone with almost no results. The doctor just kept prescribing the medication even though I told him it didn't seem to correct the problem. Again, thank you for an incredible product. The moisturizer does very well with the treatment. “

Kyle P., North Charleston, SC

• I burned my hands badly by grabbing a pan that had been in a 500 degree oven. The finger tips were seared white. I immediately applied **pure emu oil**, and added more oil for the first hour or so. Within 30 minutes the pain ceased. The next day, continuing to use the oil, there was just slight redness, no blisters or scars, and still no pain.

• Our physician's fair, red headed daughter suffered a bad sunburn on a small exposed area that did not receive sun-block. Within minutes of applying emu oil, her pain was relieved, and there was no blistering or peeling.

Sue , Medford, WI

“Everything I have tried of yours is fantastic, especially the **Redness and Blemish Control** as I have suffered for about 5 years with acne rosacea and had been prescribed all sorts of things by my doctor. He has been amazed at the results I have achieved with your crème my skin has returned to its youthful appearance and is extremely soft. Thank you.

Carol M., West Yorks UK

“I was a little skeptical because of the small of it... kind of like Noxzema or Vick’s almost, but nothing else has ever worked so quickly and without irritation or causing more breakouts. I’m impressed, and it takes a lot to impress me anymore in the skin care product department.”

Jenny M., Frankfort, IN

We take Emu oil capsules which really help our joints. But sometimes, if my knee is really painng , I break a capsule and rub the oil right on my knee - and it feels so much better. We love emu oil!

Reg and Judi Oswald

oswaldrj@com

Reg and Judi O.

“A few months ago I discovered your **Redness and Blemish cream**! It’s fantastic. I was having some health problems and was under a tremendous amount of stress. My face got red, red and broke out everywhere! I went to a Dermatologist and got some \$100.00 ointment.... It did not work. So I found your website and ordered the Redness and Blemish cream. Within a week my face was cleared up completely. I was ashamed to leave the house... but it worked wonderfully. And the order gets here immediately. I do a lot of shopping and I’m usually fighting with someone about where my order is... not you guys,, you ship it immediately. I appreciate that so much!!! Thank you so much.”

“P.S. MY husband used the cream too, he’s always had acne problems. He was amazed!”

Cherry G. Cookeville, TN

“I would like you to know that I look at your product as nothing short of a miracle, I started to suffer from rosacea about 6 years ago and after trying countless creams and long term antibiotics from the doctor nothing would get rid of it, I went from a confident, sociable woman to someone who would use any excuse not to go out, even putting on make-up made it look worse. When I heard about Redness & **Blemish Control** I was eager to try it my results were immediate, my skin is back to normal again, friends and family have complimented me on how well I look. I have written to a national magazines beauty page to tell them about this amazing product, I am sure there thousands out there who, like me, would benefit from your products.”

PS: Sorry about the spelling, math's is my strong point I might add LOL

The roll-on Purple Emu stick (**EmuX**) is the best remedy I've ever had for joint pain from arthritis. Sandy
□

[Sandra Rose J.](#)

I have tried several of your products over the past couple of months and I must tell you how impressed I am with the quality and efficacy. I'd never heard of **emu oil** 'til I found a mention of it on a website I was reading, along with the address to your site. On the strength of that person's recommendation I ordered my first bottle of emu oil and have been amazed at its wonderful properties. I use it for treatment of lichen sclerosis, and have found it very helpful in providing comfort, relief from symptoms and controlling progression of the condition.

Also, I'd been dealing for years with rosacea that seemed to just be getting worse no matter what I did. I didn't want to have to be on antibiotics the rest of my life and that seems to be the only remedy offered by doctors. The other home remedies I tried helped either a little or not at all, but provided no real relief. So I was very hopeful to read about your **Redness & Blemish Control Cream** and ordered a jar used on your 30-day guarantee. Imagine my astonishment to see my skin clear up completely, with no ace of the rosacea after only one week! As of this writing, over two months later, there has been no recurrence of the redness or blemishes or lumpy nose at all. My skin is clearer than it has been in years, no more turning red if I have a drink, or take some exercise. It's amazing and I can't thank you enough!

So then, based on how well that worked for me, I ordered a jar of your **Blemish Control Cream** for my teenage grandson who is struggling with the inevitable teenage acne. Well I'm thrilled to report that the cream is also working for him. He has not experienced any redness and his acne is much improved, in fact nearly gone. Wow. These creams are amazing.

I have also become a fan of your **Super Rich Moisturizer**. That stuff is wonderful too. I put it on my face and see the wrinkles instantly smooth out. It makes my skin so soft and smooth. It's so light, and even though I don't usually like scented products, it has a nice, light scent that is very pleasant and doesn't linger.

Oh - almost forgot. I also ordered some products for my elderly mother, some regular emu oil and Purple rub, and she is likewise thrilled. Not only that, but she and several other ladies in her assisted living home ordered some of the emu oil capsules and she has told me that it is making a big difference on her in reducing her arthritis pain, when she didn't really think anything could help. She also uses the purple rub, and together with the capsules, is now feeling more relief from pain than she has in a long time.

So thank you very much for such great products. I intend to be a customer for a long while!

Best regards, Chris R.

Thank you so much. I just want to say how delighted I have been with your **Redness & Blemish Control Crème**. It has transformed my skin and I cannot live without it now although I only need apply it every few days. I have just recommended you to my sister-in-law as she has a similar problem. I am hoping the Derma 50 may help my mild eczema now. With my grateful thanks and good wishes for your company and investment in it to us with troubled skins!

Anna Ingham

Thank you so much for providing top-rate personalized customer service! You are truly the best of the best: high quality effective products, economical price, and great-personalized service. It's very much appreciated!

I've been using the **Redness and Blemish Cream** for a few days, and I can't believe what a difference it is already making in my skin. Just as you said it would, it brought out the infection in my skin, and my chin and cheeks had a few more breakouts than normal, but that is already starting to fade away, and my red rosacea bumps on my cheeks are pretty much gone! I was hoping to be clear in time for Christmas, and it looks like that will definitely happen! I so wish I would have found you earlier, but am so grateful that I have found you!

Also, thank you so much for including a free sample of the moisturizing lotion. It's great for winter dryness, and I will definitely be ordering more, along with your emu oil once mine runs out ☺

Janna C. Plymouth, MN

Hi Guys,

I just thought that I'd drop you a quick line to say a "HUGE THANKS". I have suffered with Rosacea for the past 15 years which changes from mild to severe inflammation of my face. My self-esteem and confidence had been shot to pieces and being seen in public was very difficult for me. This was made so much worse by the fact that I'm a professional musician performing in front of people all the time. I would be constantly getting comments about the state of my skin with the redness and hideous bumps. I have tried so many products that are "GUARANTEED" to help but with no appreciable results. I had almost given up until I stumbled across your product. I thought here we go again more false promises but something inside said give it a go

Maybe Desperation. Well I have now been using the **Redness and Blemish Control** along with the **Super Rich Moisturizer** for the past 2 months and what a transformation. The Rosacea has completely gone. My skin looks better than I can ever remember and it's thanks to your amazing products. The constant burning and pain associated with this condition are no longer and my skin looks healthy. From possibly one of the biggest skeptics out there after trying so many different things I can truly say "THIS STUFF WORKS". Thank you so much for giving me back my face and my confidence.

I'm just about to order more product from you Wayne T., Bega, AUSTRALIA

I burned my hands badly with hot butter and immediately applied **Emu oil** and wrapped up the hands in a towel for about ten minutes. When I removed the towel, there was no trace on my hands of what should have been a good second-degree burn. No pain, the redness and swelling were gone!
Peggy & Glenn G, Camas Valley, OR

Dear Nettie:

After all of these years, I am still enjoying your **Redness and Blemish Control** product for controlling rosacea. Although there is no cure for rosacea, your product is the next best thing! If it were not for this product, I probably would still be trying dermatological treatments that simply are not effective for me.

Thank you for this amazing product! It truly changed my complexion for the better.

Donna Timm Shreveport, Louisiana

Comments / More Information

I'm really surprise how good this has worked on my rosacea, hadn't had a breakout since I started using the first jar of **redness and blemish control**, wow! Robert Felker papaf57@hotmail.com

- Both Glenn and I, and quite a few people who know us and use **Emu oil** have found tremendous relief for tendonitis, carpal-tunnel disease (I have it) and arthritis. Some of us use Emu oil as the only treatment, and some of us use the Emu oil as a safe "driver" (unlike DMSO) to drive cortisone, aspirin creme lotions, menthol compounds deep into the skin tissues.

Peggy and Glenn G., Camas Valley, Oregon

Nettie,

I just wanted to thank you for producing such amazing skin care products. I began using your **Redness and Blemish Control** formula a couple of months ago after fighting acne and rosacea for years using traditional OTC products as well as dermatologist-prescribed creams. Everything just made my skin worse! Until, that is, I discovered **Redness and Blemish Control** in the skin care products section of my local health food store and decided to give it a try. I started seeing positive results within a week! I wish I had known about it sooner. My skin looks and feels better than it has in years. Everyone should be using your products. I've definitely told all of my friends about them.

So, thanks again...from me and my skin!

Jennifer M

Hi, I've been using **Blemish Control** and your **Emu Oil** for about three weeks now. After washing my face with an all natural acne treatment soap, I apply one pump of emu oil all over and let it sink in for a minute, and then apply blemish control all over. I've seen SIGNIFICANT improvement of my acne, and my skin is far less oily than it was a month ago. I'm absolutely loving my results, and while it's only been three weeks, I suspect my hunt for skincare is over. And for that, I thank you.

I have one problem, though, and it's pretty minor and if there isn't a solution I'll STILL keep using the products because I love what they're doing for my skin, but I figured I should ask the experts and see if there's something else I should be doing.

Lately, like in the last 4-5 days or so, my skin has been a little faster to flush than usual. My skin hasn't gotten any more sensitive than it was (in fact I think it's gotten more resilient), but for whatever reason, I'm getting redder more frequently than I ever have. I'm not explaining it well, because it isn't a dramatic thing at all, and again if there isn't an obvious solution I'll just live with it, for all the benefits I'm getting from the Emu Oil and the BC I'd rather be a little flush than give them up!!

Thanks so much for your help!! I'm really loving what I've bought (except the lip balm, which I love except I lost the damned thing!!), and I really do think BC is the answer to my acne. I've not had a cystic blemish since I bought your products, and I've not had ANY blemish that stuck around for more than a day or two. It's truly amazing.

Thanks again!

Michelle T.

I have been using your product PELbasics for **redness & blemish control**.

My face had begun to get red and hot several weeks ago, and I was concerned. I began using the cream less than a week ago, and my face is 90% better. This cream took away the heat the skin on my face.

The puffiness is gone.

The redness is all but gone.

My skin feels GREAT, and looks very good also.

Your product is WONDERFUL.

I praise The Lord that a local health food store put me onto this product. Sincerely,

Elaine N.

The only thing that helps with rosacea – period.

Dankmar S.

- Eleven years ago I had 2 disks removed from my lower back. I was only 35 years old with a two year old child! For the first four years I could do very little - stand, sit, dishes, etc. just normal routine stuff much less play with my son. I am always plagued with pain. I hate taking pills for chronic pain due to their side effects. We became emu ranchers in 1993 and one of our friends suggested I rub some emu oil on my back. Finally, one day about 2 years ago I was waxing my hard wood floors and way over did it. I was in such pain I couldn't even stand up straight! I couldn't even sit-stand -or lay down, I was having such bad spasm. My husband said it was time to try emu oil. "What do you have to lose?" He massaged it on for about two minutes and I couldn't believe it! I straightened up, the spasms were gone, the pain was gone and I finished my floors! Of course the emu oil can't repair my back as it is now degenerating but at least I can do more things, be more active knowing when my back hurts more than I can tolerate, I have a release from pain. My husband was happy too, he didn't have to finish the floors!
 - My husband, J.V. had three cuts on his arm from moving birds. He put emu oil on two cuts. He now only has one scar! There's no doubt in my mind the worth of this bird and the oil it produces. It has given me back a quality of life I thought I'd never regain.
- Peggy & J.V. F. Grandview, Texas

Just to say, I have been using this stuff for nearly 3 years now & its amazing, has changed my life. . . thank you :)

John Bruce B.

This is the second time I'm ordering purple emu and pel basic products, I've never been more pleased with the outcomes of the products and how great they are on my skin.

Courtney P

Just a note to say thank you for your products. I have very fair, dry skin and rosacea, and I use the Purple Emu Oil every night. It keeps the rosacea in control and, most of the year, it's all I use. However, I do keep the moisturizing cream on hand to help during the extremely dry winter months.

Also, this summer we took a trip to the beach and I tried your protective sun cream. Amazingly, I did not get a sunburn, and -- as I said -- with my fair skin, I ALWAYS get at least a little sunburned. So, I give that product extra high marks! Thanks again.

Patty P. Cordova, TN

Dear Purple Emu,

This is just a quick note to tell you that I am madly in love with your products. I have been using a few of them now for over a month and my skin looks better than it *ever* has! In the billion-dollar industry, I have contributed many, many thousands in search of my miracle cream and you definitely have it. I suffer from rosacea and wanted relief from the daily antibiotics and steroids the derm. put me on. Your products turned my skin into supermodel skin and I am beside myself with joy. I just wanted you to give you my feedback. No need to respond. You have a customer for life with me.

Thank you!

Lisa St. John
